**A.7 Indicate whether or not the company has been notified of parallel shareholders agreements that affect it as per Articles 530 and 531 of the Spanish Corporate Enterprises Act. Where applicable, give a brief description and list the shareholders associated with the agreement:**

YES  NO

Parties to parallel shareholders agreements	% of share capital affected	Brief outline of agreement	Expiration date of the agreement, if there is one
CRITERIA CAIXA S.A.U  GIP III CANARY 1, S.À R.L.	44.76%	The agreement reported in Relevant Fact No. 242612 of 12/09/2016 specifies that the intervening parties assume certain undertakings concerning corporate governance of the Company and which are for the purpose of respecting the rights to proportional representation both on the Board as well as on Committees.	
ALBA EUROPE S.À R.L. RIOJA CAPITAL RESEARCH AND MANAGEMENT COMPANY INVESTMENT S.À R.L.,	20.410%	The agreement reported in Relevant Fact No. 265818 of 18 May 2018 was modified on 1 August 2019 to include the new shareholder, Rioja Acquisitions SARL replacing Rioja Bidco Shareholdings (Relevant Fact N° 281047). This Agreement affects 1.- The proposal for designation of directors in representation of Rioja Acquisitions Sarl, 2.-The adoption of decisions on the Board at the Meeting, and 3.- The system for transfer of shares.	

**Indicate whether or not the company is aware of the existence of concerted actions among its shareholders. Give a brief description as applicable:**

YES NO X

Parties to concerted action	% of share capital affected	Brief description of the concerted action	Expiry date of the concerted action, if there is one

**If any modification or cancellation of said agreements or concerted actions have taken place during the year, please make express mention of this:**

1.-Through Relevant Fact N° 281047 on 1 August 2019, Corporación Alba reported that, on said date, all the parties to the Parallel Shareholders Agreement agreed the modification of the same, as of 1 August 2019, in order to adapt it to the merger by absorption of Rioja Bidco by its sole member, namely, Rioja Acquisition, S.à.r.l., with termination date, as reported in the Relevant Fact, in September 2019 and, for that purpose, only the Parallel Shareholder Agreement was modified.

2.- Through Relevant Fact N° 283453, of 8 November 2019, Criteria Caixa reported that on 5 November 2019 it was resolved, separately, both Parallel Shareholder Agreements signed on 28 September 2018 with the companies G3T, S.L. and BCN Godia, S.L.U., respectively, in regards to shares in Naturgy Energy Group, S.A.

**A.8 Indicate whether any individual or legal entity currently exercise control or could exercise control over the company in accordance with Article 5 of the Securities Market Act. If so, identify:**

YES NO X

Name or company name

Observations

**A.9 Complete the following table on the company's treasury share:**

At year-end:

Number of direct shares	Number of indirect shares (*)	% of total share capital
5,183,890	8,639,595	1,40%

OBSERVATIONS

**Explain the significant changes over the year:**

Details of significant changes
<p>Naturgy holds 8,639,595 shares in a separate corporate vehicle that were purchased I 2018 to generate a yield that will finance the long-term incentive of certain executives if they fulfil the established conditions (see Relevant Facts dated 3 August, 1 October and 6 December 2018 and section B.7. of the Annual Remuneration Report).</p> <p>In addition, at 31 December 2019, the company has 5,183,890 shares available for the purpose of repurchasing shares for possible redemption, with the intention of acquiring shares in volume of up to 400M euros in the period ending on 30 June 2020.</p>

**A.10. Give details of the terms and conditions corresponding to the General Meeting of Shareholders current mandate to the Board of Directors for issuing, repurchasing or assigning own shares.**

1.- The General Meeting of Shareholders held on 5 March 2019, in item 5 on the Agenda, authorised the Board of Directors to agree to acquire company shares by onerous title and to do so within a deadline of five (5) years, under the following conditions:

*Fifth.- To authorise the Board of Directors so that over a term of five (5) years it can acquire by onerous title, on one or several occasions, fully paid-out shares in the Company, so that the nominal value of the shares directly or indirectly acquired, when added to those that the Company and its shareholders already hold never exceeds 10% of the subscribed capital, or any other that were to be legally established for the same. The price or value of the consideration cannot be less than the nominal value of the shares nor exceed its price or value on the Stock Exchange. The Board are hereby authorised to delegate the current authorisation to the person(s) whom they deem fit. The current authorisation extends to the acquiring of shares in the Company for the named companies.*

*For the purposes of Article 146 of the Spanish Corporate Enterprises Act (Ley de Sociedades de Capital), the shares acquired under the current authorisation, as well as those that the Company and its subsidiaries already hold, may be delivered, either in full or part, directly or as a result of the exercising of option rights, to employees or administrators of the Company or companies in its Group.*

*This authorisation replaces and renders null and void, to the extent of the unused portion, the authorisation granted by the Board of Directors by the General Meeting of Shareholders held on 14 May 2015 to acquire by onerous title shares in the Company.*

2.- The General Meeting of Shareholders on 5 March 2019, in item 9 on the Agenda, authorised the Board of Directors to agree on a reduction in share capital in 2019 through redemption of a maximum of 18,998,662 own shares by implementing a Share Buy-Back programme.

*Ninth.- Reduce the share capital of NATURGY ENERGY GROUP, S.A. (hereinafter the “Company”) by the amount resulting from the sum of:*

*1. 2,998,622 euros, through redemption of the 2,998,622 Own Shares, each with a nominal value of one euro, on close of the Market on 6 December 2018, having been acquired under the authorisation conferred by the General Meeting of Shareholders held on 14 May 2015 under item fourteen (14) on the Agenda and within the limits of that set forth in Articles 144 to 148 and 509 of the consolidated text of the Spanish Corporate Enterprises Act, approved by the Royal Legislative Decree 1/2010, of 2 July of the Spanish Corporate Enterprises Act and intended for the purposes of repurchasing own shares (buy-back), contemplated in the Strategic Plan, and possible redemption, as detailed in the Relevant Facts on 6 December 2018 (Registry Number 272,238 and 18 January 2019 (Registry Number 273,935); and*

*2. The aggregate nominal value, up to a maximum of 16,000,000 euros, corresponding to the additional 16,000,000 shares, each with a nominal value of one euro. Said shares shall be ordinarily purchased for their redemption by the Company pursuant to the Own-Shares Buy-Back Programme (hereinafter, the “Buy-Back Programme”), approved by the Company under the EU Regulation N° 596/2014 on market abuse and published as Relevant Fact on 6 December 2018 (Registry Number 272,237), whose closing acquisition date expires on 30 June 2019, inclusive.*

*As a result, the maximum amount of the reduction in share capital (the “Share Capital Reduction”) is 18,998,622 euros, through the redemption of up to a maximum of 18,998,622 own shares with a nominal value of one euro each, proportional, approximately 1.90% of the share capital of the Company at the time of the adoption of the agreement. In view of the foregoing, on the 31 January 2019 the Company held, in accordance with the two previous points, 9,438,556 Own Shares for possible redemption.*

*The definitive amount of the Share Capital Reduction shall be fixed by the Board of Directors of the Company depending on the definitive number of shares that are finally acquired pursuant to the Buy-Back Programme under the conditions established in the following section. However, in the case that the resolution contained in item eleven (11) of the Agenda of the General Meeting of Shareholders, the total amount of 8,639,595 shares acquired with respect to the Long-Term Incentive Plan, as detailed in the Relevant Fact on 6 December 2018 (Registry Number 272,238), for purposes of redemption, reducing by the same amount the needs of the Buy-Back Programme, to the extent that the underscored maximum share capital reduction amount shall not be changed”.*

*3.- The General Meeting of Shareholders held on 20 April 2017, in item fourteen (14) on the Agenda, authorised the Board of Directors to agree to the increase in share capital within a deadline of no more than five (5) years, under the following conditions:*

*“**FOURTEEN.-** Authorisation for the Board of Directors, with powers to delegate said authorisation upon the Executive Committee, in accordance with the provisions of Section 297.1 b) of the Spanish Corporate Enterprises Act, in order that, within the maximum period of five (5) years, if deemed necessary, the share capital may be increased up to a maximum amount equivalent to half of the share capital at the time of the authorisation, with provision for incomplete share subscription, by way of the issue of ordinary, preferential or redeemable shares, with or without voting rights,*

*with or without share issue premiums, by one or more share capital increase procedures and when and in the amount that is deemed necessary, including the power to waive, as the case may be, the preferential share subscription rights up to the limit of 20% of the share capital at the time of this authorisation herein , and to re-draft the corresponding Articles of the Articles of Association and to revoke the authorisation provided by the Ordinary Shareholders Meeting of 20 April 2012.*

- 1) *Taking into account the current amount of the share capital, to authorise the Board of Directors, with powers to delegate said authorisation upon the Executive Committee, to increase the share capital by the sum of FIVE HUNDRED MILLION THREE HUNDRED AND FORTY-FOUR THOUSAND SIX HUNDRED AND SEVENTY EUROS (€500,344,670.-) within the period of five (5) years, as from today's date (20/04/2017), by means of monetary payments, by one or more share capital increase procedures and when and in the amount that is deemed necessary by the Board of Directors, by way of the issue of ordinary, preferential or redeemable shares, with or without voting rights, with or without share issue premiums, without the need for any new authorisation of the General Shareholders Meeting, as well as to modify the Articles of Association that are required for the share capital increase or increases that are carried out by virtue of the aforementioned authorisation, with provision for incomplete share subscription, and all of the foregoing in accordance with the provisions of Section 297.1 b) of the Corporate Enterprises Act, and to revoke the authorisation provided by the Shareholders Meeting of 20 April 2012.*
- 2) *The Board of Directors is expressly empowered, with powers to delegate this to the Executive Committee, to fully or partially exclude the preferential subscription right with regard to all or any of the issuances agreed in accordance with the provisions of this authorisation. This power is limited to the fact that the exclusions of the pre-emptive subscription right do not exceed, as a whole, 20% of the Company's current share capital.*
- 3) *As a consequence of the foregoing agreement, to amend the Transitory Article of the Articles of Association, which will henceforth be drafted as follows:*

*“TRANSITORY ARTICLE.- DELEGATION TO THE BOARD OF DIRECTORS.*

*The company's Board of Directors, with the powers of replacing this delegation with the Executive Committee, has been authorised to increase the share capital by FIVE HUNDRED MILLION THREE HUNDRED AND FORTY FOUR THOUSAND AND SIX HUNDRED AND SEVENTY EUROS (Euros 599,344,670), within five (5) years from this date (20/04/2017), through a cash contribution, in one or more payments and as and as appropriate for the amount decided, duly issuing ordinary, privileged and redeemable shares, with or without the right vote, with or without a premium, without the need for new authorisation from the General Meeting of Shareholders, up to the limit of 20% of the share capital at the time of this authorisation, as well as to amend the Articles of Association required for the share capital increase carried out by virtue of the foregoing authorisation, not fully subscribed. All the foregoing is in accordance with the provisions laid down in Article 297.1.b) of the Spanish Corporate Enterprises Act”.*

**A.11 Estimated floating capital:**

	%
Estimated floating capital	27.7

**A.12 Indicate whether there is any restriction (statutory, legislative or of any other nature) on the transferability of securities and/or any restrictions on the voting rights. In particular, the existence of any type of restrictions that may make it difficult to take control of the company through the acquisition of its shares in the market, as well as those authorisation or prior notification systems that apply to acquisitions or transfers of financial instruments of the company through sectoral regulations, will be reported.**

YES  NO

Description of the restrictions
<p>As a Company that incorporates certain regulated and quasi-regulated assets and activities into its Group, the acquisition of NATURGY ENERGY GROUP S.A. shares may be subject to the provisions laid down in Additional Provision 9 of Law 4/2013, of 4 June, governing the National Commission on Markets and Competition.</p> <p>Given its nature as a major operator in the gas and electricity markets, the holding of its shares is subject to the restrictions laid down in article 34 of Decree-Law 6/2000, governing Urgent Measures to intensify competition in the goods and services markets.</p>

**A.13 Indicate whether the General Meeting of Shareholders has agreed to take up measures of neutralisation against a takeover bid by virtue of the provisions laid down in Law 6/2007.**

YES  NO

**If appropriate, explain the measures approved and the terms under which the restrictions would not be enforceable:**

**A.14 Indicate whether the company has issued securities not traded in a regulated market of the European Union.**

YES  NO

**If appropriate, indicate the different types of shares and, for each type of share, the rights and obligations conferred.**

**B.1 Indicate and, where applicable, give details of whether the quorum required for constitution of the General Meeting of Shareholders differs from the system of minimum quorums established in the Corporate Enterprises Act (“LSC” in Spanish).**

YES NO X

	% quorum different to that laid down in Article 193 LSC for general cases	% quorum different to that laid down in Article 194 LSC for special cases
Quorum required for the first call to meeting		
Quorum required for the second call to meeting		

Description of the differences

**B.2 Indicate and, as applicable, describe any differences between the company’s system of adopting corporate agreements and the framework established in the Corporate Enterprises Act (“LSC” in Spanish):**

YES NO X

**Describe how the system differs from that of the LSC.**

	Reinforced majority other than that laid down by Article 201.2 LSC for the cases of 194.1 LSC	Other cases of reinforced majorities
% laid down by the institution for the adoption of agreements		
Describe the differences		

**B.3 Indicate the rules governing amendments to the company’s Articles of Association. In particular, indicate the majorities required to amend the Articles of Association and, if applicable, the rules for protecting shareholders’ rights when changing the Articles of Association.**

The amendment of the Articles of Association is regulated in article 6.2 of the Articles of Association and in article 12 of the Regulations on the General Meeting

of Shareholders, which is supplemented with the corresponding provisions of the Corporate Enterprises Act.

The shareholders constituted in a duly convened General Meeting of Shareholders, shall generally decide by simple majority vote on the matters which fall to the terms of reference of the Meeting. In such case an agreement shall be deemed adopted when it obtains more votes in favour than against of the share capital either present or represented.

All shareholders, including dissidents and those that have not taken part in the meeting, are subject to the resolutions of the General Meeting of Shareholders.

In order for the ordinary or extraordinary General Meeting of Shareholders to validly agree the issue of bonds, the increase or reduction of share capital, the removal or limitation of the preferential subscription right for new shares or convertible bonds, as well as the transformation, merger, spin-off or global assignment of assets and liabilities, the transfer of the company’s registered office abroad and, in general, any modification to the Articles of Association, will require, at the first call to meeting, the attendance of shareholders, either present or represented, that hold at least fifty percent (50%) of the subscribed share capital with voting rights. In the second call to meeting, it will be sufficient for twenty-five (25%) of the share capital to be present.

The modification of the Articles of Association must be agreed by the General Meeting of Shareholders and requires the concurrence of the following requisites:

- 1) The Board of Directors or, where appropriate, the shareholders that make the proposal, must compile a written report with justification for the amendment.
- 2) The call to meeting must clearly express the proposed points of change, as well as the right all shareholders have to examine, at the registered office, the full text of the proposed modification and a report on this. They also have the right to ask for handover or free-of-charge sending of said documents.
- 3) The agreement must be adopted by the General Meeting of Shareholders in accordance with the provisions set out in these Articles of Association.
- 4) Under the circumstances, the agreement must be set out in a public deed, which will be registered with the Mercantile Registry and published in the Official Bulletin of the Mercantile Registry.

**B.4 Indicate the attendance data of the General Meetings held during the financial year to which this report refers and that of the previous financial year:**

Date of General Meeting of Shareholders	Attendance data				Total
	% physical presence	% represented	% remote voting		
			Electronic Vote	Other	
20/04/2017	68.66%	13.34%	0%	0%	82%
Of the floating capital 2017	0.1%	13.3%	0%	0%	13.4%
27/06/2018	68.69%	15.13%	0%	0%	83.82%

Of the floating capital 2018	0.2%	15.1%	0%	0%	15.3%
05/03/2019	72.12%	13.06%	0%	0%	85.18%
Of the floating capital 2019	2.55%	13.06%	0%	0%	15.61%

**B.5 Indicate whether at the General meetings held during the year there has been any item on the agenda that, for whatever reason, has not been approved by the shareholders.**

Yes  No

Agenda items that have not been approved	% of votes against (*)

**(\*)If the non-approval of the item is for a reason other than a vote against, this will be explained in the part of the text and “n/a” will be placed in the “% of votes against” column”.**

**B.6 Indicate whether or not there is a statutory restriction to the minimum number of shares required to attend the General Meeting of Shareholders.**

YES

NO

Number of shares required to attend the General Meeting of Shareholders	
Number of shares required to vote remotely	

OBSERVATIONS

**B.7 Indicate whether it has been established that certain decisions, other than those established by Law, which involve the acquisition, disposal, the contribution to another company of essential assets or other similar operations must be submitted to approval of the general meeting of shareholders.**

YES

NO

Explanation of the decisions that must be submitted to the board other than those established by law

**B.8 Indicate the URL of the company and the means of access to corporate governance content and other information concerning the general meetings and which must be made available to shareholders through the company’s website.**

With regard to the Corporate Governance section, the path is as follows:  
[https://www.naturgy.com/accionistas\\_e\\_inversores/gobierno\\_corporativo/normas\\_de\\_gobierno](https://www.naturgy.com/accionistas_e_inversores/gobierno_corporativo/normas_de_gobierno)

With the following itinerary [www.naturgy.com](http://www.naturgy.com) → Shareholders and Investors → Corporate Governance.

With regard to the General Meeting of Shareholders section, the itinerary is as follows:

Mr. Pedro Sainz de Baranda Riva	Engineering and international business profile; capitals market: Mining Engineer from the University of Oviedo, PhD in Engineering, Rutgers University of New Jersey and an MBA from the Sloan School of Management of Massachusetts Institute of Technology (MIT).
Mrs. Helena Herrero Starkie	IT, and R&D&i and international business profile: Degree in Chemical Sciences. She is the Chairperson and CEO of Hewlett Packard (HP) for Spain and Portugal.

<b>Total number of independent directors</b>	5
<b>% total of the board</b>	41.66%

<b>OBSERVATIONS</b>

Indicate whether or not any director qualified as independent receives from the company, or from its group, any amount or benefit for an item other than remuneration as director, or holds or has held, over the last year, a business relationship with the company or any other group company, whether in their own name or as a significant shareholder, director or senior executive of an entity that maintains or has maintained any such relationship.

Where appropriate, include a reasoned statement from the board on the grounds why it believes this director may perform his/her duties as an Independent Director.

Name or company name of Director	Description of the relationships	Reason statement

**OTHER EXTERNAL DIRECTORS**

Identify all other external directors and explain why these cannot be considered proprietary or independent directors and detail their relationships with the company, its executives or shareholders:

Name or company name of Director	Reasons	Company, executive or shareholder with whom the relationship is maintained	Profile

Total number of external directors	
% total of the board	

<b>OBSERVATIONS</b>

List any changes in the category of each director which have occurred during the year:

Name or company name of Director	Date of change	Former category	Current category

<b>OBSERVATIONS</b>

Throughout 2019 there has not been any significant renewal processes of the Board of Directors. The only renewal circumstance that occurred was the replacement of a natural person representative Proprietary Director, Mr. William Woodburn, who resigned from his position in the light of the new responsibilities that he had to assume in the business group to which he provides services. Mr. Scott Stanley, candidate who was replaced through the co-option system, representing a significant shareholder, was proposed by said shareholder, and certified by the General Meeting of Shareholders held on 5 March 2019.

The replacement of a legal entity proprietary director also took place, albeit due to the company restructuring of the group of the significant shareholder but did not affect the appointment of the natural person representative of the same.

Within the framework of this process of renewal of proprietary directors, the Company has first of all been respectful of the right to proportional representation that lawfully corresponds to shareholders. The detail of the assessment made by the Appointments and Remuneration Committee of the different candidates proposed by the shareholders is included in the corresponding report of the Committee that was published with the call to Meeting.

In any case, in line with the recommendations contained in the 2019 Appointments and Remuneration Committee Practical Guide of Naturgy, the Appointments and Remuneration Committee of Naturgy has worked in 2019 on the preparation of a Competency Matrix of the Board that may be used in the selection process of directors. Said matrix was finally approved by the Board of Directors at a meeting held in October 2019, and it has been already applied to the selection process of candidates to cover the position of Independent Director that is in extension of term of office. Said process, concluding with the proposal to the General Meeting of Shareholders was made by the Appointments and Remuneration Committee in the aforementioned meeting in October 2019, after approval of the Competency Matrix.

**C.1.6 Explain the measures which, where appropriate, have been agreed by the Appointments Committee so that the selection procedures are unaffected by any implicit bias that hampers the selection of female directors, and which shows that the company purposefully seeks and includes women that satisfy the professional profile sought among the potential candidates:**

Explication of the measures
The Appointments and Remuneration Committee is tasked with reviewing the necessary skills of candidates required for each vacancy, in compliance with the requirements needed for each category of director and the incorporation process of new members, forwarding the opportune

reports or proposals to the Board as necessary. For covering new vacancies, selection processes shall be guaranteed that are not subject to implicit bias that prevents the selection of female directors, with special value placed on, under the same conditions and among potential candidates, women who meet the professional profile being sought.

On the same lines, the Board meeting held in October 2019 approved, according to the recommendations of the CNMV (Spanish Securities Market Authority) 1/2019 Technical Guide, a Competency Matrix that has already been used in the process for selecting candidates to cover the position of Independent Director that is in extension of term of office and that is planned in financial year 2020, to be incorporated in the Policy for selecting Directors once the corresponding modification of said policy is approved by the Board.

**When, despite the measures adopted, the number of female directors is zero or few, explain the reasons for this:**

**Explanation of the reasons**

The Company's Appointments and Remuneration Committee fully respects the legally recognised right to proportional representation of its significant shareholders. To this end, it can only deploy fully their right of proposal in relation to Independent Directors, as done in relation to the process for selecting candidates to cover the position of Independent Director that is in extension of term of office.

**C.1.7 Explain the Appointments Committee's conclusions on the checks carried out to ensure that the Director Selection Policy is being complied with. Particularly whether the policy pursues the goal of having at least 30% of total board places occupied by female directors before the year 2020 comes to an end.**

The Appointments and Remuneration Committee has verified that the Policy for the selection of Directors has been complied with as regards the provision of existing vacancies on the board, all within the framework of the Company's shareholding structure, which imposes respect of certain legal requirements of proportional representation of the shareholders. The recommendations of good corporate governance must conform to this condition. The Committee has verified that in the selection processes for directors, the balance of criteria such as: i) expertise, ii) skills, iii) diversity and iv) experience has been taken into account.

In line with the recommendations contained in the 2019 Appointments and Remuneration Committee Practical Guide of Naturgy, the Appointments and Remuneration Committee of Naturgy has worked in 2019 on the preparation of a Competency Matrix of the Board that may be used in the selection process of directors. Said matrix was finally approved by the Board of Directors at a meeting held in October 2019, and it has been already applied to the selection process of candidates to cover the position of Independent Director that is in

extension of term of office. Said process, concluding with the ensuing proposal to the General Meeting of Shareholders to be held in 2020, was made by the Appointments and Remuneration Committee in the said meeting in October 2019, after approval of the Competency Matrix.

The percentage of female profiles among independent directors represents 20% of the total, although it is expected to increase when it is appropriate to make new proposals.

**C.1.8 Where applicable, explain why proprietary directors have been appointed at the request of shareholders whose shareholding in the capital is less than 3%:**

Name or company name of shareholder	Explanation

Indicate whether or not formal requests have been accepted for presence on the board from shareholders whose holding is equal to or higher than that of others for whom proprietary directors have been appointed. If so, explain why these requests have not been answered:

YES NO X

Name or company name of shareholder	Explanation

**C.1.9 Indicate, in the event that they exist, the powers and faculties delegated by the Board of Directors to directors or to board committees:**

Name or company name of the director or committee	Brief outline
Mr. Francisco Reynés Massanet	He has delegated extensive powers of representation and administration in accordance with the nature and requirements of the position of Executive Chairman.

**C.1.10 List the Members of the Board of Directors, if any, who hold office as Administrators or representatives of Administrators or Directors in other companies belonging to the listed company's group:**

Name or company name of Director	Company name of group entity	Position	Do they have executive duties?

**C.1.11 Identify, where applicable, the directors or representatives of legal persons of your company, who are members of the Board of Directors or director representatives, legal persons of other companies listed on official stock exchanges in Spain other than those of your group, that have been reported by the company:**

<b>Name or company name of Director</b>	<b>Corporate name of the listed company</b>	<b>Position</b>
Mr. Ramón Adell Ramón	Oryzon Genomics, S.A.	Director

Mr. Marcelino Armenter Vidal	Caixabank S.A.	Director
Mr. Pedro Sainz de Baranda Riva	Gestamp Automocion, S.A.	Director

**C.1.12 Indicate and, where appropriate, explain whether the company has established rules about the maximum number of company Boards on which its directors may sit, identifying how this is regulated where appropriate:**

YES NO  X

<b>Explanation of the rules and identification of the document where it is regulated</b>

**C.1.13 Indicate the amounts of the following items relating to the overall remuneration of the Board of Directors:**

Overall remuneration earned by the Board of Directors during the year (thousands of euros)	7.803
Cumulative amount of rights of current directors in pension scheme (thousands of euros)	5.232(*)
Cumulative amount of rights of former directors in pension scheme (thousands of euros)	0

<b>OBSERVATIONS</b>
(*) It includes the amount corresponding to the variable remuneration 2018 and 2019 that are settled as a contribution to the Executive Chairman's Social Security Plan as it is beneficiary.

**C.1.14 Identify members of senior management who are not also executive directors, and indicate the total remuneration they earned during the year:**

Name or company name	Position/s
Mr. Carlos Javier Álvarez Fernández	Chief Financial Officer
Mr. Antonio Gallart Gabás	Director of Business Infrastructures Latin America South Zone
Mr. José García Sanleandro	Director of Business Infrastructures Latin America North Zone
Mr. Antonio Basolas Tena	Manager Corporate Strategy & Development
Mr. Manuel Fernández Álvarez	Business Director Gas & Electricity
Mr. Manuel García Cobaleda	General and Board Secretary
Mr. Jordi García Tabernero	Communication & Institutional Relations Managing Director

Mrs. Rosa M <sup>a</sup> Sanz García	España & Empl – Medgaz Infrastructure Business Managing Director
Mr. Miguel Angel Aller Blanco	Lean Project Manager
Mr. Steven Fernández	Capitals Market Director
Mr. Jon Ganuza Fernandez De Arroyabe	Controlling
Mr. Carlos Ayuso Salinas	Director of Internal Audit

<b>Total remuneration of senior management (in thousands of euros)</b>	16.366
--	--------

<b>OBSERVATIONS</b>
Messrs. Egea Krauel and Peris Mingot stopped working for the company in 8 april 2019 and 31 December 2019, respectively.

**C.1.15 Indicate whether or not there has been any modification to the regulations of the board during the year:**

**YES**        **NO**

<b>Description of modifications</b>
At the meeting of 29 October 2019 Article 6 of the Board Regulations was amended to (i) extend from six (6) to eight (8) the minimum yearly meetings that the Board should meet and (ii) to facilitate any Director requesting the inclusion of matters in the Agenda.

**C.1.16 Indicate the procedures for appointing, re-electing, evaluating and removing directors. Provide details of the competent bodies, the procedures to be followed and the criteria applicable in each procedure.**

<p>The procedures for the appointment, re-election, evaluation and removal of directors are regulated in Article 7 of the Articles of Association and in Articles 9 and 10 of the Regulations for the Organisation and Functioning of the Board of Directors and its Committees, supplemented by the provisions of Article 529 decies of the Spanish Corporate Enterprises Act (“LSC” in Spanish).</p> <p>1.- Appointment:</p> <p>The General Meeting of Shareholders is competent for appointing directors and establishing the number thereof, subject to the limits stipulated in Article 7 of the Articles of Association.</p> <p>If vacancies were to arise during the term for which the Directors were appointed, the Board shall be entitled to designate, using the co-option system, the persons to occupy these vacancies until the first General Meeting of Shareholders is held.</p> <p>The status of Shareholder is not required to be appointed Director.</p>
--

Anyone who is in any of the situations that, pursuant to prevailing legislation, prevents such characterisation, cannot be proposed, appointed or qualified as Independent Directors.

It will be necessary to appoint persons who not only satisfy legal provisions and those laid down in the Articles of Association for the position, but who have a prestigious position and are equipped with the professional skills and expertise required to perform their duties.

Directors are appointed and re-elected in accordance with a formal and transparent procedure, following a previous report/proposal from the Appointments and Remuneration Committee.

In particular, the proposals for the appointment of Directors which the Board of Directors submits to the General Meeting of Shareholders, as well as appointments adopted by the Board by virtue of its powers of co-option, must be made subject to a proposal from the Appointments and Remuneration Committee in the case of Independent Directors, or a report for the remaining Directors. When the Board does not follow the recommendations of said committee, it will have to explain the reasons and record the said reasons in the Minutes.

In addition, the Board of Directors, on the proposal of the Appointments and Remuneration Committee and in line with the recommendations of the Guide of the CNMV on Appointment and Remuneration Committees, approved in their meeting in October 2019 a Competency Matrix, for which assistance was provided by an Independent Expert. The Policy for selecting Directors was modified on 4 February 2020 to include the need for preparing and taking into consideration this Competency Matrix in all processes for selecting Directors.

## 2.- Re-election:

Directors elected as of 27 June 2018, will hold office for a maximum term of four (4) years, and may be re-elected (those elected up to that date have a term of three (3) years). The Directors appointed by co-option will exercise their position under the terms established in prevailing legislation.

The Appointments and Remuneration Committee is also entrusted with evaluating the quality of the work and the dedication of the Directors proposed during the preceding mandate. It will make suggestions regarding Independent Directors and report on the remaining Directors, on a compulsory basis, on the proposals for the re-election of Directors which the Board of Directors chooses to submit to the General Meeting of Shareholders.

The Independent Directors shall not remain in their post for a period of more than twelve (12) years.

According to the foregoing, the new Competency Matrix approved by the Board is also to be used in the process for re-electing Directors.

## 3.- Replacement or removal:

Directors shall be replaced in their position for the length of the term for which they were appointed, unless they are re-elected, and when so determined by the General Meeting of Shareholders by virtue of the powers granted thereto. Likewise, directors shall be replaced in all other circumstances where applicable pursuant to the Law, the Articles of Association and Regulations of the Board of Directors.

Directors shall be compelled to tender their resignation to the Board of Directors and proceed with the pertinent resignation, if the latter deemed it appropriate, in the following cases:

- a) When Executive Directors step down from their executive positions.
- b) When they are subject to any of the conditions of professional prohibition or incompatibility pursuant to applicable laws, the Articles of Association or these Regulations.
- c) When they commit a serious breach of their obligations as directors, jeopardising the interests of the Company.
- d) When the reason why they were appointed as independent, executive or proprietary directors is no longer applicable.

In any case, the Board of Directors pays special attention to issues of diversity and not only gender diversity, within the framework of full respect for the right of shareholders as recognised by the Law on Proportional Representation. As explained in previous sections, a Competency Matrix has been used in the process for covering the position of Independent Director whose re-election/appointment must be put forward to the General Meeting of Shareholders, since the term of office has expired of the Director currently in this position and it is planned modify in financial year 2020 the Policy for selecting Directors to include this Matrix in all processes to cover vacancies or re-election of Directors.

**C.1.17 Explain, if applicable, to what extent this annual evaluation has prompted significant changes in its internal organisation and the procedures applicable to its activities:**

<b>Description of modifications</b>
<p>The evaluation of the Board of Directors for 2017 included the participation of an independent expert as consultant, which implemented throughout 2018 of an Action Plan on the subject of corporate governance which led to the approval in the General Meeting of Shareholders in 2018 of some new Company's Articles of Association, the reduction of the number of Directors, the removal of the Executive Committee, and the attribution to the Appointments and Remuneration Committee of new powers in matters of corporate governance.</p> <p>Since a there has been in-depth renewal with respect to corporate governance in financial year 2018, the assessment of the board relating to financial year 2018 has not identified the need to make any significant changes to internal organisation or in the procedures applicable to the activities during financial year 2019.</p> <p>Nonetheless, the publication by the CNMV of the Technical Guide for Appointments and Remuneration Committees led to both the Committee and the Board as a whole to examine the processes to which said Guide makes reference. The most significant outcome of the same is that the Board approved a Competency Matrix in October 2019 and the</p>

modification to the Directors Selection Policy to include the need to take said Matrix into account in the processes for selecting Directors was approved in the meeting held in February 2020.

**Describe the evaluation process and the areas evaluated by the Board of Directors, assisted by an outsourced consultant, regarding the operation and composition of its committees, and any other area or aspect that has been subject to evaluation.**

Description of the evaluation process and areas evaluated
<p>The Board was advised by an external consultant for the self-assessment of its operation during 2017, which allowed it to have a base with which to address the process of simplification and the broad renewal of the Board in June 2018. For this reason, the Board has not resorted to such external consultation in 2018, on the understanding that it is appropriate to let a certain period of time pass in order to adequately analyse the effectiveness of the agreed measures, since they have been implemented progressively throughout 2018.</p> <p>Notwithstanding, the experience gained in said evaluation process has served to improve the internal self-assessment process. Likewise, similar to that done in 2018, some detailed questionnaires were prepared on which the Appointments and Remuneration Committee have worked, and that were sent to all Members of the Board and the Committees so that they could express their opinions relating to the functioning of the Board. This meant that the questionnaires could be submitted anonymously if the Director so deemed to do so. The conclusions of said questionnaires have been analysed in detail when preparing the corresponding self-assessment reports.</p> <p>The Assessment of the Board assisted by an external consultant shall most likely be carried out in financial year 2020.</p>

**C.1.18 Explain, for any of the years in which the evaluation has been assisted by an external advisor, the business relationship the adviser or any group company maintains with the company or any group company.**

NOT APPLICABLE

**C.1.19 Indicate the cases in which directors must resign.**

Directors shall be replaced in their position for the length of the term for which they were appointed, unless they are re-elected, and when so determined by the General Meeting of Shareholders by virtue of the powers granted thereto. Likewise, directors shall be replaced in all other circumstances where applicable pursuant to the Law, the Articles of Association and Regulations of the Board of Directors.

Directors shall be compelled to tender their resignation to the Board of Directors and proceed with the pertinent resignation, if the latter deems it appropriate, in the following cases:

- a. When Executive Directors step down from their executive positions.
- b. When they are subject to any of the conditions of professional prohibition or incompatibility pursuant to applicable laws, the Articles of Association or these Regulations.
- c. When they commit a serious breach of their obligations as directors, jeopardising the interests of the Company.
- d. When the reason why they were appointed as Independent, Executive or Proprietary Directors is no longer applicable.

**C.1.20 Are qualified majorities other than those prescribed by law required for any type of decision?**

YES  NO

**Where appropriate, describe the differences.**

Description of the differences
<p>Article 7.4 of the Regulations of the Board of Directors states the following:</p> <p>“4.- The resolutions must be adopted with the vote of the absolute majority of the directors who attend, whether present or represented, unless the Law, the Articles of Association or these Regulations establish an enhanced majority.</p> <p>In particular, the favourable vote of more than two thirds of the directors, whether present or represented, will be required for the valid adoption of resolutions on the following matters reserved for the plenary session of the Board and, therefore, non-delegable:</p> <ol style="list-style-type: none"> <li>a) The acquisition or disposal of assets belonging to the Company (regardless of the legal means used for this purpose and, in particular, even if they are carried out through merger, spin-off or other operations of subsidiaries) in excess of Euros 500,000,000, unless its approval corresponds to the General Meeting of Shareholders or is carried out in execution of the budget or strategic or business plan of the Company.</li> <li>b) The approval of the budget and the strategic or business plan of the Company.</li> <li>c) The modification of the dividend distribution policy and the approval of a new one.</li> </ol>

- d) The subscription, modification, renewal, non-renewal or termination by the Company of financing or refinancing agreements for an amount exceeding Euros 500,000,000.
- e) The subscription, modification, renewal, non-renewal or termination by the Company of any material contract, other than those provided for in section d) above, whose amount exceeds Euros 500,000,000 in the case of gas supply contracts and of Euros 200,000,000 in the case of other contracts.
- f) The material changes in the accounting and tax criteria and policies of the Company, unless they are due to modifications of applicable legislation or compliance with the guidelines and criteria set by the competent authorities in the matter.
- g) The reformulation of the Company's annual accounts, unless such reformulation is due to a modification of applicable legislation or compliance with the guidelines and criteria set by the competent authorities in the matter.
- h) Capital investments (capex) not provided for in the Company's annual budget for an amount exceeding Euros 200,000,000 euros.
- i) The modification of the matters of paragraph a) to i) or modification of the enhanced majority of the vote required for any of them."

**C.1.21 Indicate if there are specific requirements other than those relating to directors in order to be appointed as Chairman of the Board of Directors.**

YES                      NO    **X**

Description of requirements

**C.1.22 Indicate whether the Articles of Association or the Board Regulations establish any age limit for Directors:**

YES                      NO    **X**

	Age limit
Chairman	
<b>Chief Executive Officer</b>	
<b>Director</b>	

Observations

**C.1.23 Indicate whether the Articles of Association of the Board regulations set a limited term, or other requirements stricter than those legally determined, or office for independent directors different to the one established in the regulations:**

YES NO **X**

Additional requirements and/or maximum number of years of in office	
---	--

**C.1.24 Indicate whether the Articles of Association or Board Regulations stipulate specific rules on appointing a proxy to the Board, the procedures thereof and, in particular, the maximum number of proxy appointments a Director may hold. Also indicate whether there are any restrictions as to what categories may be appointed as a proxy other than those stipulated by law. Where appropriate, give a brief description of these rules.**

As established in Article 7.5 of the Articles of Association “Directors who cannot attend may delegate their representation to another Director, with or without instructions to vote, and must notify the Chairman or the Secretary.”

In addition, Article 7.3 of the Regulations of the Board states: “Each Director shall be entitled to confer his/her representation to another Director, there being no limit on the number of representations held by each member for attending the Board meeting. Absent Directors’ representations can be conferred by means of any written document, or any electronic means, addressed to the Chairman’s Office or the Board Secretary before the beginning of the session”.

Likewise, in the Board Meeting held in October 2019, it was agreed to instruct the Directors so that, in general, and in line with recommendation 27 of the Code of Good Governance of Listed Companies, they include voting instructions in proxy representations.

**C.1.25 Indicate the number of board meetings held during the year. Also indicate, where applicable, how many times the Board has met without the Chairman being present. When calculating the number, representations made with specific instructions shall be considered as attendance.**

Number of board meetings	16
Number of board meetings without the Chairman attending	0

<b>Observations</b>

**Indicate the number of meetings held by the Coordinating Director with the rest of the Directors, without the attendance or representation of any Executive Director.**

<b>Number of meetings</b>	0
---------------------------	---

<b>Observations</b>
Since the Coordinating Director is also the Chairman of the Appointments and Remuneration Committee and had held this position on the Audit Committee, of which he is still a member, he has usually had contacts with the non-executive directors and especially with the Independent Directors, both as regards remuneration issues as well as corporate governance in general, which have made it unnecessary to convene formal meetings.

**Indicate the number of meetings held by the different board committees over the year:**

Number of meetings of the Executive Committee	0
Number of meetings of the Audit Committee	6
Number of meetings of the Appointments and Remuneration Committee	6
Number of meetings of the Appointments Committee	
Number of meetings of the Remuneration Committee	
Number of meetings of the _____ Committee	

<b>Observations</b>

**C.1.26 Indicate the number of board meetings held during the year with all Members in attendance:**

Number of meetings attended in person by at least 80% of the Directors	16
% of attendance over the total number of votes during the year	97%
Number of meetings with attendance in person, or representations made with specific instructions of all the Directors	12
% votes cast with attendance in person and representations made with specific instructions, on total votes during the year	96%

<b>Observations</b>

**C.1.27 Indicate whether the consolidated and individual annual accounts submitted for authorisation for issue by the Board are certified previously.**

YES  NO

**Identify, where applicable, the person(s) who has/have certified the company's individual and consolidated annual accounts in order to be drawn up by the Board:**

Name	Position
Mr. Carlos Javier Álvarez Fernández	Chief Financial Officer

**C.1.28 Explain the mechanisms, if any, established by the Board of Directors to prevent the individual and consolidated annual accounts it prepares from being laid before the General Meeting of Shareholders with a qualified audit report.**

By virtue of those established in Article 529.4 of the Corporate Enterprises Act and in the Articles of Association, the Audit Committee is responsible for, among others, the functions of informing the General Meeting of Shareholders about the issues that arise in relation to those matters that fall within the remit of the Committee and, in particular, on the result of the audit, explaining how this has contributed to the integrity of the financial reporting and the role that the Committee has played in that process, as well as supervising the process of preparation and presentation of mandatory financial reporting and submitting recommendations or proposals to the administrative body, aimed at safeguarding its integrity.

To this end, the Audit Committee has supervised the process of preparing financial information and has engaged in fluid dialogue with the external auditor, with the utmost respect for its independence, where it has been informed of the Audit Plan, of the preliminary and final results of the auditor's analyses, and where its independence has been specifically ensured. In any case, it is noteworthy that no accounting qualifications have been made.

**C.1.29 Is the Secretary of the Board also a Director?**

YES                      NO **X**

**Complete if the secretary is not also a Director:**

Name or corporate name of the Secretary	Representative
Mr. Manuel García Cobaleda	-

Observations

**C.1.30 Indicate the specific mechanisms introduced by the Company to preserve the independence of the External Auditors, as well as, if any, mechanisms to preserve the independence of financial analysts, investment banks and rating agencies, including how the legal provisions have been implemented in practice.**

Among the legal functions that correspond to the Audit Committee are to establish the appropriate relations with the external auditor to receive information on those issues that may pose a threat to its independence, for

examination by the committee, and any others related to the process for conducting the accounts audit and, where appropriate, the authorisation of services other than those prohibited, under the terms set out in Articles 5, paragraph 4, and 6.2.b) of Regulation (EU) No. 537/2014, of 16 April, and as set out in section 3 of chapter IV of title I of Law 22/2015, of 20 July, on Accounts Auditing, on the independence regime, as well as those other communications provided for in the audit legislation of accounts and in the auditing standards. In all cases, on an annual basis, the Audit Committee shall receive from the Auditors written confirmation of their independence vis-à-vis the company or entities related to it directly or indirectly, in addition to detailed and individual information on additional services of any kind rendered to these entities by the aforementioned auditors or person or entities related to them in conformity with the provisions of auditing legislation.

Issuing annually, prior to the issuance of the audit report, a report expressing an opinion on whether the independence of the auditors or audit companies is compromised. This report shall in all cases include a reason assessment of each of the additional services provided, as referred to in the previous section, considered separately and in their totality that consists of services other than statutory audits and how they relate to the requirement of independence or to the regulatory legislation of the activity on auditing of accounts.

Likewise, the Board of Directors has entrusted the Audit Committee with, inter alia, the following functions: to ensure that the remuneration of the external auditor for its work does not compromise its quality or independence and ensure that the company and the external auditor respect the standards in force on the provision of services other than auditing, the limits on the concentration of the auditor's business and, in general, the other rules governing the independence of auditors.

The company's relations with financial analysts and investment banks are based on the principles of transparency, simultaneity and non-discrimination as well as the existence of specific and different agents for each collective. In order to increase transparency, this area has been enhanced by differentiating it from the Financial Department.

In addition, the company shall take special care not to compromise or interfere with the independence of the financial analysts in respect of the services offered by investment banks, in accordance with the internal codes of conduct established by them and designed to separate their analysis and assessment services.

**C.1.31 Indicate whether the company has changed its external audit firm during the year. If appropriate, identify the incoming and outgoing auditors:**

YES NO **X**

Outgoing auditor	Incoming auditor

Observations

**C.1.35 Indicate, and give details if any, whether there are procedures for directors to receive the information they need in sufficient time to prepare for meetings of the governing bodies:**

YES  NO

Details of the procedure
<p>Articles 6.2 and 6.3 of the Regulations of the Board of Directors state: “2- Notices convening sessions shall be issued by the Chairman or the Secretary, or by the Deputy Chairman on order of the Chairman, and may be effected by any of the channels set out in the Articles of Association. The notification shall include the place and the agenda of said meeting and shall be issued, at least five (5) days before the meeting is to be held, specifying the agenda of the meeting. In the event of an emergency duly justified by the Chairman and thus appreciated by the Board at the start of the meeting, a call to meeting will be made by telephone, fax, email or any other telematic means, with sufficient notice to allow the directors to participate in the meeting. Prior to each meeting the directors shall be furnished with the information and documentation considered to be pertinent or relevant regarding the subjects to be addressed in the Board Meeting. Directors shall also be furnished with the Minutes of the previous meeting, regardless of whether said minutes have been approved or not. The Chairman shall be authorised to establish the order of the day, except in the event of the compulsory convening in which case the agenda of the convened meeting will include the issues indicated by the Directors who request it. 3.- The Board Meeting shall have a quorum, without being previously convoked, if all the directors are present or represented and unanimously accept that the board meeting be held”.</p> <p>The procedure followed involves sending, usually a week in advance, the call to meeting, the agenda and any information that is available and may be useful for more accurate knowledge of the matters to be discussed in the Board Meeting.</p> <p>To this end, the Board’s documentation is made available to the directors through a computer platform, which allows them permanent access to it. The Directors have access to the documentation of all bodies of the Board, irrespective of whether or not they are members of a Committee. In addition, Directors are provided with other information relevant to the</p>

exercise of their functions (relevant events, new regulations, access to press reviews, etc) through the platform.

Furthermore, during the meeting, those Directors whose issues are being dealt with at the meeting are available to be called -and they frequently are called -so that the Directors in attendance can ask them directly for any clarifications, details or opinions in relation to the items discussed in the session and can directly appreciate their suitability for the position.

Finally, the Directors may request additional information they deem necessary for the exercise of their duties through the Board Secretary.

**C.1.36 Indicate and, where applicable, give details of whether or not the Company has laid down rules that oblige the Directors to report and, if necessary, resign in cases that damage the Company's credit and reputation:**

YES  NO

<b>Explain the rules</b>
<p>In accordance with Article 11.3 of the Board Regulations, the Director is subject to the duty of loyalty under the terms established in prevailing legislation and, in particular, section e) of said article 11.3, establishes that the Director shall inform the Company of any kind of legal or administrative claim or any claim of any nature in which he/she is involved which, due to its significance, could have a serious bearing on the reputation of the Company. The Board shall examine the matter and adopt the appropriate measures in the Company's interest and with the required urgency.</p> <p>Also, Directors shall be compelled to tender their resignation to the Board of Directors and proceed with the pertinent resignation, if the latter deems it appropriate, in the following cases:</p> <ul style="list-style-type: none"><li>a) When Executive Directors step down from their executive positions.</li><li>b) When they are subject to any of the conditions of professional prohibition or incompatibility pursuant to applicable laws, the Articles of Association or these Regulations.</li><li>c) When they commit a serious breach of their obligations as directors, jeopardising the interests of the Company.</li><li>d) When the reason why they were appointed as independent, executive or proprietary directors is no longer applicable.</li></ul>

**C.1.37 Indicate whether or not any Member of the Board of Directors has informed the Company that he/she has been prosecuted or hearings against him/her have been opened for any difference laid down in Article 213 of the Spanish Corporate Enterprises Act:**

YES NO X

Director's name	Criminal Case	Observations

**Indicate whether or not the Board of Directors has analysed the case. If the answer is affirmative, give a reasoned explanation of the decision taken as to whether or not the Director remains in his/her post or, where appropriate, list the actions taken by the Board of Directors up to the date of this report or those scheduled to be taken.**

YES NO X

Decision taken/action taken	Reasoned explanation

**C.1.38 Detail the major agreements, entered into by the company based on the takeover, and the effects of these agreements.**

An important part of the Naturgy investee companies with shareholders outside the group contain change of control clauses whereby the other shareholder is entitled to choose to acquire the shareholdings in the event of change of control of the holding company of the Naturgy Group.

On the hand, most of the outstanding financial debt includes a clause related to the change of control, either by acquiring more than 50% of the voting shares or by obtaining the right to appoint the majority of Members of the Board of NATURGY ENERGY GROUP, S.A. These clauses are subject to additional conditions, whereby their activation depends on the simultaneity of the same of the following events: The significant reduction of the credit rating caused by the change of control, or the loss of the investment grade by the rating agencies: the inability to meet the financial obligations of the contract, material damage to the creditor, or a material adverse change in solvency. These clauses entail the repayment of the debt, although they usually have a longer period than that granted in the event of early termination.

More specifically, the bonds issued, with an approximate value of Euros 9.7 billion (standard practice in the Euromarket), would be susceptible to early maturity providing that the change of control causes a fall of two or more full notches in at least two of the three ratings it had or all of the ratings fall below investment grade, and providing the Rating Agency explains that the reduction of the credit rating is caused by the change of control.

There are also loans for an amount of approximately Euros 2 billion, linked to long-term infrastructure financing with funds from the European Investment Bank, which could be subject to early repayment in the event of a change of control. To activate these clauses, in addition to the change

of control event a reduction of the rating is required, and they have special repayment terms for the debt that are longer than those of early termination cases

**C.1.39 Identify, individually, when referring to Directors and in aggregate form in all other cases, and provide detailed information on agreements between the Company and its officers, executives and employees that provide indemnities for the event of resignation, unfair dismissal or termination as a result of a takeover bid or other type of operations.**

Number of beneficiaries	17
Beneficiary type	Description of the agreement
Executive Chairman	<p>The Chairman’s contract establishes compensation for the cessation or non-renewal of the position of Director for the overall mount of two years of: (i) fixed total annual cash remuneration, (ii) the annual variable remuneration and (iii) according to the concept of multi-year variable remuneration, a lump sum equivalent to 1.25 of the fixed total annual cash remuneration. This concept will only be multiplied by a full year if, at the time of accrual, the minimum profitability target of the LTI plan has not been reached; the second full year can be recovered if the minimum target was finally reached at the end of the plan.</p> <p>The compensation will not be payable in the event of serious and culpable breach of their professional obligations that causes significant damage to the interests of Naturgy. Furthermore and as a post-contractual non-competition agreement, compensation equivalent to one year’s fixed remuneration has been established.</p> <p>The contract of the Executive Chairman sets out the termination of the contract and the payment of compensation if he forfeits his executive functions and will continue as non-executive Chairman. In this case, the compensation provided is identical to that of the previous section, but reduced by half, that is, one full year.</p>

Executives	<p>The contracts signed with 11 executives contain a clause that establishes a minimum compensation of one full year of fixed remuneration in some cases and two full years of compensation in others in certain cases of termination of the relationship, which include certain cases of change of control, unfair dismissal or the cases set out in Articles 40, 41 and 50 of the Workers' Statute. These contracts also contain a clause which sets out compensation equivalent to one year's fixed remuneration for post-contractual non-competition for a period of two years.</p> <p>In addition, 1 executive have compensation agreements whose amounts entitle them to receive a minimum compensation of one fixed full year of remuneration in some cases and two full years of compensation in other in certain cases of termination of the relationship, which include unfair dismissal or the cases set out in Articles 40, 41 and 50 of the Workers' Statute.</p> <p>Moreover, there are compensation agreements with 4 other executives, equivalent to one year's fixed remuneration for post-contractual non-competition for a period of two (s) years.</p>
------------	--

**Indicate whether, beyond the cases stipulated by the regulations, these contracts have to be reported and/or approved by the bodies of the company or its group. If so, specify the procedures, assumptions foreseen and the nature of the bodies responsible for their approval or communication:**

<b>Observations</b>

**Explain the functions, including, if applicable, those additional to those legally envisaged, which have been attributed to this committee, describe the procedures and rules for the organisation and functioning of the same. For each of these functions, indicate its most important actions during the year and how it has exercised in practice each of the functions attributed to it either in the law or in the articles of association or other corporate resolutions.**

**a) Functions of the Audit Committee:**

The Committee has the powers set out in Law and those entrusted to it by the Board of Directors in a general or specific manner.

In response to different resolutions of the Board of Directors of 27 November 2015, 29 January 2016 and 6 March 2018, it exercises the following functions:

- Prepare the report or auditor independence.
- Prepare the Report on the performance of the Audit Committee.
- Prepare the Report on related operations.

- Strive to ensure that the Board of Directors can present the company’s accounts to the General Meeting of Shareholders without limitations or qualifications in the Auditor’s report. In the exceptional case that qualifications exist, both the Chairman of the Committee and the Auditors should give a clear account to shareholders of their scope and content of said limitations.
- With respect to control and reporting systems:
  - (a) Supervising the preparation and completeness of the financial information concerning the company and, if appropriate, the group, checking due compliance with the governing regulations, the proper delimitation of the consolidation criteria and the correct application of accounting criteria.
  - (b) Ensuring the independence of the unit handling the internal audit function; approve its priorities and work programmes, ensuring that it focuses primarily on the main risks the company is exposed to; receive regular reports on its activities; and verify that senior management is acting on the findings and recommendations of its reports. Propose to the Chairman of the Board of Directors the selection, appointment, re-election and removal of the person responsible for the internal audit service, as well as proposing the budget for that service, with the final decision corresponding to the Chairman of the Board of Directors.
  - (c) Setting up and supervising a mechanism whereby employees can report, confidentially and, if appropriate and feasible, anonymously, any significant irregularities that they detect in the course of their duties, in particular financial or accounting irregularities.
- With regard to the External Auditor.
  - (a) In the event of resignation of the External Auditor, the Committee should investigate the issues giving rise to the resignation.
  - (b) Ensuring that the remuneration of the external auditor does not compromise its quality or independence.
  - (c) Supervising that the company notifies any change of external auditor to the National Securities Market Commission as a relevant event accompanied by a statement of any disagreements arising with the outgoing auditor and the reasons for the same.
  - (d) Ensuring that the external auditor has a yearly plenary session of the board to inform them of the work undertaken and developments in the company’s risk and accounting positions.

- (e) Ensuring that the company and the external auditor adhere to current regulations on the provision of non-audit services, limits on the concentration of the auditor's business and other requirements concerning auditor independence.
- Call any of the Company's employees or managers, and also have them appear without the presence of any other executive.
- Analyse and report to the Board of Directors on the economic conditions and the accounting impact and, especially, where applicable on the exchange ratio, in relation to the operations of structural and corporate modifications that, due to their nature or amount, are of special relevance. Transactions whose net value exceeds the value of 25% of the assets that appear on the last approved balance sheet of the Company will be deemed relevant.
- In addition:
  - (a) Supervision of compliance with the internal codes of conduct.
  - (b) Overseeing the communication and relations strategy with shareholders and investors, including small and medium-sized shareholders.
  - (c) The regular evaluation of the adequacy of the company's governance system
  - (d) Monitoring and assessing the processes of liaising with different stakeholders.
  - (e) The evaluation of the company's non-financial risks

**b) Procedures, and organisational and operational rules**

**in accordance with Article 26 of the Regulations of the board**

The Audit Committee shall comprise a minimum of three (3) and a maximum of seven (7) Directors appointed by the Board of Directors from among the non-executive directors, and one of them will be appointed taking into account their knowledge and experience in issues of accountancy, audit or both. Its members shall leave their post when they do so in their capacity as Directors or as agreed by the Board of Directors.

The Board of Directors shall elect the Chairman from amongst the members of the Committee, the majority of whom will have the status of Independent Director; the Chairman shall not have the casting vote. The post of Secretary of the Committee will be held by the person who is the Secretary of the Board of Directors, if there is one.

The Committee shall hold meetings whenever necessary in order to issue its reports or proposals, and will be convened by its Chairman on his own initiative or upon prior request of two of its members. At least four (4) meetings per year must be held. The Committee may invite to its meetings any executive or employee it deems appropriate.

**c) Main actions taken during the year 2019.**

In the exercise of its powers during the financial year it has reported and/or adopted proposals, among others, on the following matters:

- Quality and efficiency of its operation.
- External audit of individual and consolidated Annual Accounts.
- Supervision of the process of preparation of financial reporting.
- Tax situation.
- Independence of the Auditor.
- Related-party transactions.
- Verification of the crime prevention system.
- Supervision of risk control systems and specific risk analysis.
- Supervision of internal control and internal audit systems.
- Monitoring of own-share operations
- Action Plan in terms of Compliance
- Internal Audit Supervision

**Identify the Directors who are Members of the Audit Committee who have been appointed Chairman on the basis of knowledge and experience of accounting or auditing, or both, and state the date that said Director was appointed Chairman.**

<b>Name of Directors with experience</b>	MR. RAMÓN ADELL RAMÓN
<b>Date of appointment as Chairman</b>	27/06/2018

**OBSERVATIONS**

<b>% of independent directors</b>	57.14%
<b>% of other external directors</b>	-

Observations

**Explain the committee’s duties, describe the procedure, and organisational and operational rules. For each of these functions, indicate its most important actions during the year and how it has exercised in practice each of the functions attributed to it either in the law or in the articles of association or other corporate resolutions.**

**a) Duties of the Appointments and Remuneration Committee:**

The Committee has the powers set out in Law and those entrusted to it by the Board of Directors in a general or specific manner.

The Board of Directors has entrusted it with the following functions:

- Prepare the report on performance of the Appointments and Remuneration Committee.
- Verify the selection policy for Directors and report on this in the Annual Corporate Governance Report.
- Through delegation that must be granted by the Chairman of the Board, to organise and coordinate the regular assessment of the Board and that of the Chief Executive of the Company.
- Prepare the report on the operation of the Board of Directors.
- Propose to the Board of Directors the standard conditions for Senior Executive contracts.
- Monitor compliance with the remuneration policy set by the Company.
- Regularly review the remuneration policy for Directors and Senior Executives.
- Ensure that conflicts of interest do not undermine the independence of any external advice the committee engages.
- Verify information on remuneration of Directors and Senior Executives contained in the various corporate documents.
  
- Through a resolution of the Board of Directors on 29 January 2016, it was entrusted with the exercise of all the corporate social responsibility powers that hitherto had been exercised by the Audit Committee.
- Through a resolution of the Board of Directors on 6 March 2018, it was agreed to entrust the Appointments and Remuneration Committee with the following tasks previously entrusted to the Audit Committee:
  - i) Monitor of the most relevant incidents in terms of health, safety and the environment.
  - ii) Raise proposals and report on initiatives in corporate governance.

**b) Procedures, and organisational and operational rules**

**in accordance with Article 25 of the Regulations of the Board:**

The Appointments and Remuneration Committee shall comprise a minimum of three (3) and a maximum of seven (7) Directors appointed by the Board of Directors from among the non-executive directors, and at least one of them will be appointed taking into account their knowledge and experience in issues of accountancy, audit or both. Its members shall leave their post when they do so in their capacity as Directors or as agreed by the Board of Directors.

The majority of members of the Committee will hold the status of Independent Director, from among which the Board of Directors will elect the Chairman of the same, who will not have a casting vote. The post of Secretary of the Committee will be held by the person who is the Secretary of the Board of Directors, if there is one.

The Committee shall hold meetings whenever necessary in order to issue its reports or proposals, and will be convened by its Chairman on his own initiative or upon prior request of two (2) of its members. At least four (4) meetings per year must be held. The Committee may invite to its meetings any executive or employee it deems appropriate.

**c) Main actions taken during the year 2019:**

The Appointments and Remuneration Committee has focused its actions on three fundamental aspects:

- i) Corporate Governance: i) the Technical Guide of CNMV for Appointments and Remuneration Committees has been analysed and, to adapt to its recommendations, measures have been adopted. As part of the same of note is the proposal to the Board of Directors for their approval of a Competency Matrix for which external assessment was sought, ii) a modification to the Policy for selecting Directors to include the need for preparing said Competency Matrix was proposed, iii) the Committee has worked hard on the self-assessment process of the Board in which some specific questionnaires have been designed that must be completed by the Directors, iv) different measures for modifying the Articles of Association and the Board of Directors Regulation have been proposed to progress in the alignment to the best corporate governance practices (minimum number of meetings of the Board and right to any Director to include items on the Agenda of the Board Meeting) Proposal for new Directors: given that the Independent Director Mrs. Herrero is in extension of term of office, the coverage of this position has been analysed with the help of the aforementioned Competency Matrix. As a result of the same, the Committee proposed to the Board the renewal of Mrs. Herrero in her position.
- ii) Health and Safety: the Committee has followed the indicators on Health and Security of the Group and have been informed of the accidents reported and the proposals for corrective and preventative measures. Likewise, the integrated model of the Group for managing safety has been analysed in detail.
- iii) Remuneration: the Committee has been engaged in applying the new Director Remuneration Policy by the General

Meeting of Shareholders of 2019, as well as supervising the remuneration policy of the Management Team.

iv) Corporate Social Responsibility: the Committee have analysed and submitted to the Board for their approval a new Strategic Sustainability Plan for 2019-2022.

<b>Observations</b>

**D.3 Detail those transactions that are significant because of their amount or which are materially relevant, performed between the company or entities within its group and the company's administrators or executives:**

Name or Company Name of the Administrators or Executives	Name or Company Name of the Related Party	Relationship	Nature of the Operation	Amount (thousands of euros)

<b>Observations</b>

**D.4 Report on the significant transactions carried out by the company with other companies belonging to the same group, provided that they are not eliminated in the process of drafting the consolidated financial statements and are not part of the company's usual trading in terms of its purpose and conditions.**

**Under all circumstances, report any intra-group transaction performed with entities established in countries or territories considered to be a tax haven:**

Company Name of the Entity of the Group	Brief description of the Operation	Amount (thousands of euros)

<b>Observations</b>

**D.5 Indicate the amount from related party transactions.**

0 (thousands of euros).

**D.6 List the mechanisms established to detect, determine and resolve any possible conflicts of interest between the company and/or its group, and its directors, management or significant shareholders.**

## 1.- Directors:

In accordance with the Regulations of the Board:

The Director is subject to the duty of loyalty under the terms established in prevailing legislation and, in particular:

- The Director must refrain from participating in deliberating and voting on resolutions or decisions in which they or a related person have a direct or indirect conflict of interests. Resolutions or decisions that affect them in their capacity as director, such as their appointment to or removal from posts on the governing body or others of a similar nature, will be excluded from the preceding obligation.

- Also, the director shall adopt the measures required to avoid becoming involved in situations in which their interests, either for their own personal reasons or those of another party, may conflict with the company's interest or with their duties with the Company.

- In his/her capacity as loyal representative of the Company, the director must inform the company of shares in the company he/she holds, directly or through companies in which he/she has a majority holding, following the procedure and other processes that are established for investment in NATURGY ENERGY GROUP S.A. and investee companies.

- The director must notify the Company of significant changes to their professional circumstances and changes which affect the nature or capacity by which he/she was categorised.

- The director shall inform the company of any kind of legal or administrative claim or any claim of any nature in which they are involved which, due to its significance, could have a serious bearing on the reputation of the company. The Board shall examine the matter and adopt the appropriate measures in the Company's interest and with the required urgency.

The Board of Directors shall endeavour, at all times, to prevent proprietary directors from using their position to obtain asset benefits without adequate compensation, to the advantage of the shareholder that put them forward for the position.

The Director must abstain from conducting activities for themselves or for another party which, actually or potentially, entail effective competition with the Company or which, in any other manner, place them in permanent conflict with the Company's interests. Particularly, the director, may not hold, himself or by means of a representative, posts of whatsoever kind in companies or enterprises that compete with NATURGY ENERGY GROUP S.A. or any other company in its group, or provide the same services of representation or consultancy in favour thereof. A company shall be considered as a competitor of NATURGY ENERGY GROUP S.A. when, directly or indirectly, or through companies in its group, it is devoted to any of the activities included in the corporate purpose of NATURGY ENERGY GROUP S.A.

The Director Selection Policy establishes that candidates are to be asked if they may have any possible conflicts of interests.

## 2.- Directors and executives:

Indicate whether or not their respective activity area and possible business relations between them have been publicly defined, as well as those of the listed subsidiary with the other companies in the group:

YES

NO

Define the possible business relationships between the parent company and the listed subsidiary company and between the listed subsidiary and the other companies in the group

Indicate the mechanisms laid down to solve possible conflicts of interests between the listed subsidiary and the other companies in the group:

Mechanisms for solving possible conflicts of interests

## **E CONTROL SYSTEMS AND RISK MANAGEMENT**

**E.1 Describe the risk management system in place at the company, including fiscal risks.**

The Risk Management System works in a comprehensive and continuous way, and integrates the corporate visions of Corporate Governance, Risks and Compliance of the Company, enabling a full overview of the Group's processes, the existing controls over these and the associated risk.

The system ensures the independence of the control and risk management functions attributed to each of the responsible bodies and units, and is responsible for determining thresholds for the main risk categories in order to define the overall risk profile of the Company, guaranteeing the predictability of its performance in all relevant aspects for its stakeholders.

The main objective of global risk management is to ensure that the most relevant risks are correctly identified, assessed and managed, to ensure that the level of risk exposure assumed by Naturgy in the performance of its activities is consistent with the global profile of defined objective risk and with the achievement of the annual and strategic objectives.

**E.2 Identify the bodies responsible for preparing and implementing the risk management system, including fiscal risks.**

### **Audit Committee**

A body supervising the efficiency of internal control and risk management systems. It ensures that the foregoing identify the different types of risks and the measures planned to mitigate them and to address them should they materialise.

### **Risk Committee**

Is responsible for determining and reviewing the main risk profile of the company. Likewise, it supervises that the organisation as a whole understands and accepts their responsibility when identifying, assessing and managing the most relevant risks.

**Risk Control Units**

Responsible for monitoring, controlling and reporting the assumed risk and ensuring the maintenance of the main risk profile established. Noteworthy units include: Risks and Insurance, Gas&Power Risks and Internal Auditing.

**Business, Corporate and Project Units**

They are responsible for the application of the main principles of the Control and Risk Management Policy and the management of the risk in their areas of responsibility: observing, reporting, managing and mitigating the different risks.

**E.3 Indicate the main risks, including fiscal, which may prevent the company from achieving its business targets.**

	Description	Management
Market risk		
Gas price	Volatility in international markets which determine gas prices.	Physical and financial hedges. Portfolio management
Electricity price	Volatility in electricity markets in Spain and Portugal.	Physical and financial hedges. Optimisation of generation park.
Gas volume	Gap between gas supply and demand.	Optimisation of contracts and assets. Trading.
Electricity volume	Reduction in available thermal gap. Uncertainty in the volume of hydraulic production	Optimisation of commercialisation/generation gap.
Regulation	Exposure to revision of criteria and levels of return recognised for regulated activities.	Heightened intensity of communication with regulatory bodies. Adjusting efficiencies and investments to recognised rates.
Exchange rates	Volatility in international currency markets.	Geographical diversification. Hedges through financing in local currency and derivatives. Monitoring of the net position.

Interest rates and credit spread	Volatility in financing rates.	Financial hedges. Diversification in financing sources.
Fiscal	Ambiguity or subjectiveness in the interpretation of the prevailing fiscal regulations, or through a relevant change to the same.	Consultations with independent expert organisations. Recruitment of leading consultancy firms. Adhesion to the Code of Good Tax Practices. Allocation of provisions with criteria of prudence.
Credit risk		
Credit	Uncertainty over the evolution of ratios of payment default conditioned by the economic cycle.	Customer solvency analysis to define specific contractual conditions. Collection process.
Operational risks		
Operational: image and reputation	Deterioration in perception of Naturgy by different stakeholders.	Identification and tracking of potential reputation events. Transparency in communication.
Operational: insurable.	Accidents, damages or non-availabilities in assets of Naturgy.	Ongoing improvement plans. Optimisation of total cost of risk and hedging.
Operational:	Damages to the natural and/or social environment. Evolution of environmental regulation.	Emergency plans in installations with risk of environmental accidents. Specific insurance policies. Complete environmental management.
Operational: climate change	Evolution of environmental factors as a consequence of climate change. Regulation geared towards fighting it.	Corporate positioning with regard to climate change. Active participation on influence forums.
Operational: cybersecurity	Attacks on computer systems.	Implementation of security measures. Analysis of events and application of remedies Training
Compliance risk		
Reputational and criminal risk	Administrative and criminal sanctions. Deterioration of the reputational image of NTGY.	Crime Prevention Model. Ethics Code and Anticorruption Policy. Whistleblowing Channel. Compliance Training.

Thrid-Party risk	Administrative and criminal sanctions. Damage derived from contractual breach.	Third-Party Due Diligence Procedure
------------------	--	-------------------------------------

**E.4 Identify if the company has a risk tolerance level, including tax risks.**

The company has levels of risk tolerance established at corporate level for the main kinds of risks.

The risk assessment process lies in identifying the risks, generally by those businesses that are subject to risk exposure. This identification takes place at the time the risk exposure originates. However, an in-depth review is carried out every year by the Risk Units to ensure proper identification of all risk exposures, whether current or future.

It is the Risk Unit's responsibility to assess the risks identified, based on:

- a) Risk position: definition and characteristics.
- b) Impact variables.
- c) Qualitative and quantitative severity of the risk occurring.
- d) Probability of risk occurring.
- e) Defined mitigation controls and mechanisms, and their effectiveness.

Lastly, it will propose a tolerance level for the types identified, which will be approved by the Risk Committee.

**E.5 Identify any risks, including tax risks, which have occurred during the year.**

The risks that have materialised during the financial year have been inherent to the activity carried out, such as: exposure to regulatory risks, volatility of fuels and of the pool in Spain, the exchange, interest, credit or counterparty rates.

The risk control mechanisms have enabled the company to keep their impact within the established tolerance range, defined by means of the current risk limits.

Faced with uncertainty in the domestic and worldwide economic outlook, the company will seek to position itself in countries that promote legal security, economic developments in stable macroeconomic environments that ensure steady growth that contributes to the generation of value and profitability of business and enterprise, balance the weight of its businesses in its mix of activities, and it will place greater focus on increasing the contribution of regulated activities and a more electric profile.

Subsequent to the approval of the new Strategic Plan 2018-2022, asset impairment or write-offs of Euros 4,851 million have been recorded, caused by the reassessment of future cash flow estimates based on the aforementioned plan, as well as other factors that have occurred during the period.

**E.6 Explain the response and monitoring plans for the main risks the company is exposed to, including tax risks.**

The risks regarding the performance of Naturgy are set out in the company's Corporate Risk Map, containing:

- Definition and characteristics of the main risk factors.
- Evolutionary aspects of the Risks Map.
- Impact variables.
- Main measurement methodologies used for each kind of risk.
- Qualitative, quantitative and probable severity of the risk materialising.
- Defined controls and their effectiveness.

The Risk Control Units and other specific areas (Regulation, Environment, Generation) perform periodic measurements of the evolution of main risks, duly giving the opportune instructions in the event of observing levels of exposure or trends in risk evolution that could exceed the established tolerance.

## **F INTERNAL SYSTEMS OF CONTROL AND RISK MANAGEMENT WITH REGARD TO THE INTERNAL CONTROL SYSTEMS OVER FINANCIAL REPORTING (ICFR)**

**Describe the mechanisms that make up your entity’s internal control system and management of risks with regard to the financial information reporting process (ICFR).**

### **F.1 The company’s control environment**

**Report on, duly detailing their main characteristics, at least:**

#### **F.1.1. Which bodies and/or functions are in charge of: (i) the existence and upkeep of an appropriate and effective ICFR; (ii) its implementation; and (iii) its supervision.**

Naturgy has defined its Internal Control System over Financial Reporting (hereinafter “ICFR”) in the “Global Policy and General Procedure of the Internal Control System over Financial Reporting (ICFR) General Standard of Naturgy”.

As part of the ICFR, Naturgy has defined, in the foregoing **Global Policy and General Procedure**, the responsibilities model of the same. This model revolves around the following five areas of responsibility:

- Board of Directors: The Board is responsible for the existence of an appropriate and efficient ICFR, the supervision of which is delegated upon the Audit Committee.

The Board Regulations of Naturgy Energy Group, S.A. and its Committees, in Article 3 Section II, establish that the determination of the risk control and management policy, including tax risk, and supervision of the internal information and control systems are, among others, a matter that cannot ordinarily be delegated by the Board of Directors.

- Audit Committee: Among other tasks, this committee is responsible for supervision of the ICFR. Article 26 Section 2 of the Board Regulations states that the Committee has the powers set out in Law and those entrusted to it by the Board of Directors in a general or specific manner. Thus, Article 529.14 of the Spanish Corporate Enterprises Act sets out in section 4.b) that the Audit Committee will have the function of supervising the effectiveness of the company’s internal control, internal audit and risk management systems, as well as discussing with the Accounts Auditor the significant weaknesses of the internal control system detected in performance of the audit. In particular and in relation

to the reporting and control systems, the Audit Committee is responsible for, inter alia, the supervision of the preparation process and integrity of the financial information related to the company and, where applicable, the group, reviewing compliance with the standard requirements, the appropriate definition of the consolidation perimeter and the correct application of accounting criteria. For the performance of some of these duties, the Audit Committee is supported by the Internal Auditing Unit.

- Corporate Financial Department: This department is responsible for the design, implementation and operation of the ICFR. For the performance of this function, it is supported by the Internal Control of Financial Reporting team.
- Administration and Operational Monitoring of the Business Unit: is responsible for the implementation and functioning of the ICFR. For the performance of this function it is supported by the team responsible for the Internal Control of Financial Reporting of the business.
- Internal Auditing Unit: In general, it is responsible for assisting the Audit Committee in the ongoing review and assessment of the effectiveness of the Internal Control System in all areas of Naturgy, providing a systematic and rigorous approach for the monitoring and improvement of processes and for the assessment of operational risks and controls associated to these, including those corresponding to the ICFR and the Crime Prevention Model.
- Compliance Unit, responsible of the Crime Prevention Model at NTGY, provides information and support to the Audit Committee on the control model. Proper compliance with SCIIF model guarantees the Crime Prevention Model to avoid possible crimes related to financial information..
- Business, Services and Project Units involved in the financial reporting process. These are responsible for carrying out the processes and maintaining daily operations to ensure that the control activities implemented are performed.

**F.1.2. Whether or not the following elements exist, particularly with regard to the procedure for financial reporting:**

- **Departments and/or mechanisms responsible for: (i) the design and review of the organisational structure; (ii) the clear definition of the lines of responsibility and authority, with an appropriate distribution of tasks and duties; and (iii) that there are sufficient procedures for proper dissemination at the entity.**

The design and review of the organisational structure of top tier management, as well as definition of the lines of responsibility, are carried out by the Board of Directors, through the CEO and the Appointments and Remuneration Committee.

As a result of the push down of functions, specifically Internal Control, the responsibilities, previously centralized in the Corporate Finance Department, have been decentralized to each of the business countries regarding the implementation and operation of the SCIIF Model.

In this sense, the Corporate Finance Department is responsible for establishing the criteria and principles for the design and organization of the operation of the SCIIF (with the Internal Financial Information

Control team), through the SCIIF Global Policy and General Procedures and the rest of the internal regulatory body. (indicated in section F.1.1.)

In this process, the Administration and Operational Monitoring units are responsible for the implementation and operation of the SCIIF (with the business's Internal Financial Information Control team).

As a result, with the new operating model and organizational changes, where each business is involved in the preparation of its financial information, there is no longer a single NTGY Financial Information Interrelationship Map, there being different Interrelationship Maps in each of the existing critical business processes. These Interrelationship Maps are prepared by the Administration and Operational Monitoring Units of the business and additionally the Financial Management prepares the Interrelationship Maps of the transversal and corporate processes

In this regard, there are six main areas that Naturgy has taken into consideration in compiling the interrelationships map of the critical processes involved in preparing the financial information:

- (i) the information required to prepare the financial reporting;
- (ii) the parties in charge that are either the source or recipient of the financial reporting and
- (iii) the distribution of tasks among the different organizational units
- (iv) the scope of this distribution to all group companies
- (v) the frequency of information transfer
- (vi) the information systems that are involved in the drafting process and for the issue of the financial reporting;

Thus, using the Interrelationships Maps of Naturgy, the processes that have an impact on the preparation of financial reporting are clearly defined, both the operational processes that have a relevant impact on financial reporting, as well as those processes associated to the administrative and accounting function, and those Managers involved in the same.

- **Code of Conduct, approval body, level of dissemination and instruction, principles and values included (indicating whether or not there are specific mentions to the register of operations and the preparation of financial reporting), the body in charge of analysing breaches and proposing corrective actions and fines.**

The undertakings of Senior Management of Naturgy include focusing their efforts on ensuring that operations are carried out within an environment of professional and ethical practices, not only through the introduction of mechanisms targeted at preventing and detecting fraud committed by employees, or inappropriate practices that could lead to sanctions, fines or which could damage the image of Naturgy, but also reinforcing the importance of ethical values and integrity among its professionals.

In this regard, Naturgy has a Code of Conduct (hereinafter “Code of Ethics”), which was approved by the Board of Directors on 31 March 2005. This code is mandatory for all employees of NATURGY ENERGY GROUP S.A. and for all investee companies in which Naturgy holds

management control. The updates and modifications to the Code of Ethics are carried out by the Board of Directors of NATURGY ENERGY GROUP, S.A.

Since it was approved, it has been amended four times, on the last occasion on 27 June 2014, with the purpose of updating it and including new commitments acquired by Naturgy in relation to the coming into force of the reform of the Penal Code (Organic Law 5/2010), the implementation of a Crime Prevention Model in the group, the issue of the Anti-Corruption Policy of Naturgy and in order to adapt it to the best Corporate Responsibility practices.

The Code of Ethics sets out the general ethical principles for Naturgy as a whole, setting out the values to be pursued in practice throughout the organisation, and which includes: (i) purpose; (ii) scope of application (involving all members of Naturgy); (iii) governing criteria of conduct at Naturgy (declaration of the group's style of governance); (iv) conduct guidelines (declaration of key values of Naturgy); (v) acceptance and compliance of the code; (vi) Code of Ethics Committee and (vii) enforceability.

The Code of Ethics considers integrity and responsibility in the exercise of professional activities to constitute a fundamental general criteria for conduct at Naturgy. More specifically, it sets out a series of action guidelines to a greater or lesser extent related to the reliability of the financial reporting and to compliance with applicable regulations, and in particular:

- Respect for the law, human rights and ethical values (Section 4.1)  
“Naturgy undertakes the commitment of acting at all times in accordance with applicable laws, with the internal regulatory system established with internationally accepted ethical practices, with total respect towards human rights and public liberties (...)”

- Processing of information and knowledge (Section 4.11):  
“All employees that enter any kind of information in the group's IT systems must ensure that this information is rigorous and reliable.

In particular, all the group's economic transactions should be clearly and precisely set out in the corresponding registries, via the pertinent accounts, and in all transactions performed, including all income and incurred expenses.

Employees of Naturgy shall refrain from any practice that contravenes the undertaking to clearly and accurately reflect all financial transactions in the group's Accounts”.

Naturgy has also established an Anti-Corruption Policy, which was approved by the Management Committee in a meeting held on 3 March 2014, amended in the meeting held on 24 November 2015, and which is compulsory for all employees of all the companies which make up the Naturgy group with majority shareholding and those in which it has responsibility in its operation and/or management. The policy is understood to be an extension of Chapter 4.7. “Corruption and Bribery” of the Code of Ethics of the group, which has the purpose of establishing the principles which must be used to guide the conduct of all employees and administrators of the companies of Naturgy with regard to the

prevention, detection, investigation and remedy of any corrupt practice within the organisation.

The Code of Ethics Committee of NTGY has as its principal mission promoting its dissemination and application throughout the group, and to provide a channel of communication to all employees in order to receive enquiries and notifications regarding breaches of the Code of Ethics and the Anti-Corruption Policy.

The Committee is chaired by the Compliance Unit and is formed by representatives of different units involved in the monitoring of compliance of the Code of Ethics and the Anti-Corruption Policy.

The Committee regularly reports to Senior Management and to the Audit Committee. The nature of the committee is to provide reports and recommendations, proposing corrective measures to those units in charge of providing solutions to problems through practical application of the Code of Ethics and the Anti-Corruption Policy, and simultaneously acting as a bridge between these units and employees.

The sanction regime, where necessary, is established by the Human Resources Unit.

To favour not only the exercise of said responsibility but also knowledge and dissemination of the Code of Ethics, this code is available in nine languages:

- Externally: Naturgy corporate website.
- Internally, on the group's Naturalnet platform.

In addition, online training courses through the Corporate University of Naturgy have been developed, which are mandatory for all employees of Naturgy.

Through the Code of Ethics Committee, Naturgy periodically carries out campaigns for the Code of Ethics Compliance Declaration and Anti-Corruption Policy, to disclose the guidelines governing the conduct expected from all employees, to circulate the mechanisms that exist to make enquiries and notifications, and to periodically formalise the commitment of all the employees of the group in accordance with the ethical guidelines and principles of integrity.

Naturgy, to encourage the knowledge of the Code of Ethics among its Suppliers and collaborating companies sets out a clause in the General Terms and Conditions of Contracting in which it promotes practices which are in keeping with the guidelines for conduct included in the Code of Ethics of Naturgy, and informs them of where they can find the Code of Ethics of the group, along with information in the enquiries channel and notifications on aspects related to the Code of Ethics. Furthermore, in 2016 the Code of Ethics for Suppliers was approved and published, the purpose of which is to establish the guidelines that must govern the ethical behaviour of Suppliers, Contractors and External Collaborators of Naturgy. This Code sets out the commitments provided for under the United Nations Global Compact as well as under the Code of Ethics, the Human Rights Policy, the Corporate Responsibility Policy and the Anti-Corruption Policy of Naturgy.

- **Whistleblowing channel, which enables communication to be sent to the Audit Committee concerning any irregularities of a financial and accounting nature, along with any possible breaches of the Code of Conduct and irregular activity within the organisation, and state whether said channel is confidential.**

NTGY has a Whistleblowing Channel, accessible to all its employees and third parties.

The aforementioned Whistleblowing Channel corresponds to an open channel (internal web platform accessible from any device), accessible to all NTGY employees and interested third parties, to deal with matters related to the Ethics Code. This channel allows all group employees, suppliers and collaborating companies to collect or provide information on any matter related to the Code of Ethics and Anti-Corruption Policy. They can also get in touch through the channel to communicate in good faith and confidential conduct contrary to the Code. All this outside the hierarchy of the usual operations of the employees.

All communications made through the channel are absolutely confidential and can be anonymous, respecting the limitations established in the Personal Data Protection regulations. In this sense, the president of the Ethics and Compliance Committee (Compliance Director) has access, in the first instance, to know all the information of all the queries and notifications received from the group through the consultation and notification procedure. Likewise, notices related to fraud, audit or failures in accounting processes or internal control are reported directly to the Audit Committee.

More detailed information on the Code of Ethics, the Anti-Corruption Policy, the activities of the Ethics and Compliance Committee and the use of the communication channel is given in the 2019 Corporate Responsibility report of NTGY.

- **Training programmes and periodic retraining for personnel involved in the preparation and review of financial reporting, as well as the assessment of the ICFR, which at least cover the accounting, audit, internal control and risk management standards.**

The need to have a sufficient and, above all, updated qualification of those professionals involved in the preparation and review of financial reporting, as well as in the assessment of the ICFR, make it essential to implement an appropriate training plan, by which those persons in charge of each area have the knowledge required to perform the different functions included in the process of preparing and reviewing financial reporting.

To this end, Naturgy has the Corporate University, which is responsible for managing the knowledge and development of persons in all areas of the company. It integrates the model, the channels, the programmes and the training and learning actions of the group, introducing methodologies and training experiences with criteria of quality, impact, efficiency and cost optimisation.

The Corporate University has a quality management system pursuant to the ISO 9001:2015 standard, renewed in 2019 and with CLIP (Corporate Learning Improvement Process) accreditation from the European Foundation for Management Development (EFMD) since 2003 and last renewed in 2018 for a five-year period. This certificate recognises the quality of learning and development processes of people of corporate education organisations.

The aims of the Corporate University are, among others: to guarantee the adequacy of the position/person, the acquisition of knowledge linked to new needs of the organisation, compliance with prevailing legislation and the development of skills and abilities related to the Naturgy leadership and culture model; based on placing an updated and quality training offer at the disposal of employees.

With the implementation of the Evolution - Success Factors platform as a training management tool, to improve and adapt training to the demands of employees and businesses, employees and their managers have been involved in defining the training required for their position and/or professional development; in addition, all employees have direct access to all the online training of the company's catalogue, with a model of institutes and knowledge areas and a set of channels and platforms for disseminating specific content.

The relevant programmes performed in 2019 included the roll-out of the digital Teams tool. The purpose of this programme is to promote agile and flexible work habits, creating collaborative and mobile environments that facilitate new ways of working, taking advantage of the opportunities that this new technology offers. The global scope of Teams intends to be a transformation leverage for Naturgy.

Complimenting this programme training actions on Agile, SCRUM, Power BI, Big Data and SQL have been given that support the new ways of working in the Company.

Another of the relevant programmes carried out is the development of the online Cybersecurity course for all employees, with a focus on technical knowledge and on the duties and obligations in this area.

The specific knowledge for the economic-financial area covers several objectives, including normalising the economic-financial processes developed in any area of the organisation: updating the criteria governing accounting, tax, finance, risk management, management control, international regulations and technical knowledge of the tax area; as well as providing sufficient knowledge on the assessment of companies, financial derivatives and analysis of financial statements.

In total, in 2019 more than 1,600 professionals from the economic-financial area devoted nearly 1,600 hours to training in specific content, highlighting, among other matters, auditing, financial risks, renewable financing, functioning of the markets, internal control criteria for international bank payments, compliance, unbundling and activity separation and international tax planning.

## **F.2 Assessment of financial reporting risks**

**Provide information, at least, on the following:**

**F.2.1. What are the main characteristics in the risk identification process, including risks of error or fraudulent practices, with regard to:**

- **If the process exists and it is documented.**

The approach used by Naturgy to carry out the financial reporting risk identification and analysis process is set out in three interrelated matrices:

- A matrix for defining the scope of the financial reporting.
- A matrix of risks associated with the financial reporting.
- A matrix of financial reporting control activities

The matrix for defining the scope of the financial reporting has the purpose of identifying the accounts and breakdowns which have an associated significant risk, whose potential impact on financial reporting is material and therefore requires special attention. In this regard, a series of quantitative variables (account balance and variation) and qualitative variables (complexity of transactions: changes and complexity in standards; need to use estimates or forecasts; application of judgement and qualitative importance of the information) have been taken into account in the process of identifying accounts and significant breakdowns. The methodology for preparing the scope matrix has been outlined in a technical instruction entitled “Matrix for defining scope of financial reporting of Naturgy”.

For each one of the accounts/significant breakdowns identified in the scope matrix, the critical processes and sub processes associated have been defined, and the risks which might give rise to errors in financial reporting have been identified, covering the objectives for the control of existence and occurrence; integrity; valuation; presentation, breakdown and comparability; and rights and obligations, in the “Risks matrix of financial reporting of Naturgy”.

Within the risk identification process defined by Naturgy in its ICFR, problems relating to fraud have been considered to be a very important element. In this regard, the fraud risk control policy of Naturgy is supported by three basic pillars:

- Fraud prevention.
- Fraud detection.
- Investigation and management of fraud situations.

Preventative anti-fraud controls, from the perspective of financial reporting, have been defined, and are classified into two categories. Those called active controls, which are considered to be barriers for restricting or preventing access to valuable assets by persons who might attempt to commit fraud. On the other hand, passive controls aim to prevent fraud by way of dissuasive measures.

Lastly, both the general control activities as well as the process control activities, which consist of the policies and procedures included in all stages of the financial reporting process and which can assure its reliability, are set out in the “Matrix of activities of control for financial reporting in Naturgy”.

The ICFR of Naturgy is a dynamic system, so its periodic updating is a fundamental process to comply at all times with the goal of the same, viz., to ensure that the group’s financial reporting is reliable. In particular, the definition matrix of the scope thereof is updated yearly.

- **If the process covers all the financial reporting objectives (existence and occurrence; integrity; assessment; presentation, breakdown and comparability; and rights and obligations), if it is updated and how frequently.**

Naturgy, being aware of the importance of having a tool to ensure adequate control of ICFR management, implemented, in 2013, the SAP GRC Process Control, for the comprehensive management of documentation, assessment and oversight of internal control in Naturgy processes. This implementation, which was performed within the framework of the programme for improving the efficiency of Naturgy, was initially carried out in all Spanish companies with majority shareholdings in which the company is held responsible for its operation and/or management. In 2014 the implementation of the SAP GRC Process Control tool was carried out in the Share Economic and Financial Services Centre of Latin America; in 2015 the implementation extended to other countries of the group, such as Mexico and France; in 2016 the tool was implemented in Holland, in 2017 in Panama and Brazil. For the implementation of SAP GRC Process Control, both on a national and international level, users responsible for the key controls of the ICFR and of the Internal Auditing Unit have provided support. .

It is noteworthy to mention that, during the year 2015, the scope of the corporate ICFR model was extended to countries which have recently been included in the group, such as Chile, as a result of the acquisition in November 2014 of the Chilean group Compañía General de Electricidad, S.A. (CGE). Additionally, during 2018, this was extended to companies in Ireland and Singapore, respectively that have a relevant presence in terms of international commercialisation of LNG. Lastly, in 2019 the scope of the corporate model for the renewable energy business was extended to Australia. These additions strengthen and reinforce Internal Control in Naturgy.

The ICFR model of Naturgy is integrated in SAP GRC Process Control, except for the scope definition matrix. This application identifies the General Controls of Management, the General Environment Controls and the General Computer Controls, the critical processes, their associated risks and the control activities used to mitigate them, set out in the aforementioned risks matrices and controls. The units responsible for carrying out the control activities are also identified and integrated in the process structure.

The benefits provided by the implementation of SAP GRC Process Control include the following:

- It centralises all the ICFR documentation and management of Naturgy in a uniform way.
- It integrates the internal control of financial reporting in business and transversal processes, allowing each responsible organisational unit to regularly assess its controls, providing the necessary evidence and, every year, execute the ICFR internal certification process.
- It uses work flows and forms for managing control activities, the documentation of evidence of the execution thereof and for the action plans.
- It allows documentary access to evidence of controls in respect of processes and viewing of the result of the assessment in a user-friendly and immediate way.
- It is a support tool for the ICFR supervision process by Internal Auditing and External Auditing.

It allows both external and internal information required for reporting on the ICFR to be obtained and support.

After SAP GRC Process Control was started up in April 2013, the control evaluation requests have been performed in the following years according to the established schedules, whereby the units involved in ICFR were asked to provide evidence of the controls performed, in accordance with the frequency stipulated in each case. If applicable, this assessment allows weaknesses, and the action plans necessary, to be identified and completed.

- **The existence of a process for the identification of the consolidation perimeter, taking into account, among other aspects, the possible existence of complex corporate structures, instrumental or special purpose entities.**

Part of the critical processes identified includes the process of identifying the consolidation perimeter of Naturgy and it has been described in a technical instruction called “Consolidated closing cycle of Naturgy”. Said document sets out the process for the monthly update of the perimeter, in accordance with the corporate operations of the period, and the units involved therein are defined. This process of identification and update of the perimeter is of fundamental importance for the drafting of the consolidated financial reporting of Naturgy.

- **If the process takes other types of risks into account (operating, technological, financial, legal, reputational, environmental, etc.) insofar as they affect the financial statements.**

The risks matrix has taken into account the risks associated with reaching the objectives of financial reporting, considering, in that identification, the effects of other kinds of risks (for example: operating, technological, financial, reputational, etc.) which form part of the Corporate Risk Map of Naturgy.

- **Which governing body of the company supervises the process.**

The Audit Committee is responsible for supervising the efficiency of the ICFR. In order to carry out this function, the Audit Committee uses the Internal Audit Unit (see section F.5).

### **F.3 Control activities**

**State, duly detailing their main characteristics, whether, at least, the following aspects exist:**

- F.3.1. Procedures for the review and authorisation of financial reporting, and the description of ICFR, to be published on the securities markets, indicating their supervisors, and the documentation which describes the flow of activities and controls (including those relating to risk of fraud) of the different types of transactions which can have a material impact on the financial statements, including the closing of accounts procedure and the specific review of relevant judgements, estimates, valuations, and protection.**

Naturgy conducts regular reviews of the financial information prepared and of the description in the ICFR according to the different levels of responsibility, guaranteeing the quality of this description.

As a first level of review, the persons responsible for the closing of accounts of each company of Naturgy, within the Administration and Operational Monitoring of the Business units, review the financial reporting drawn up to ensure it is reliable.

Furthermore, the financial reporting of Naturgy is regularly reviewed by the head of the Corporate Financial Department, identifying possible deviations.

Ultimately, the Chief Financial Officer certifies the reasonability of the individual and consolidated annual accounts of NATURGY ENERGY GROUP, S.A. presented to the Board of Directors for approval.

Furthermore, as indicated in the “Global Policy for the Internal Control System of Financial Reporting (ICFR)” of Naturgy, control activities defined by the group in its ICFR comply with the basic objective of ensuring that the financial reporting of Naturgy represents the true and fair image of the group.

The control activities defined in the ICFR include both general controls and controls over critical processes.

While they do not allow a sufficient degree of control to be achieved over the group’s processes, general controls are mechanisms that enable a series of key targets to be obtained for the achievement of an effective ICFR; in other words, they describe the policies and guidelines designed to protect Naturgy’s ICFR in its entirety.

In addition, all the critical processes identified have been documented by means of the control activities matrix and by the pertinent descriptive technical descriptions of the processes. These critical processes, their associated risks and the control activities which mitigate them, as well as the descriptive documentation of the aforesaid processes, are identified in the ICFR management tool, SAP GRC Process Control. In this regard, Naturgy has identified all the processes necessary to draw up the financial information, using relevant judgements, estimates, valuations and forecasts, all of them being considered to be critical. The Audit Committee is regularly informed of the main hypotheses used to estimate the financial reporting which depends on relevant judgements, valuations and projections.

The following information has been included in the documentation included in SAP GRC Process Control of the critical processes and control activities:

- Process description.
- Process information flow chart.
- Map of systems which interact in the process.
- Description of financial reporting risks associated with the different processes and control objectives.
- Definition of control activities to mitigate risks identified and their attributes.
- Descriptions of persons responsible for processes and control activities.

The following classifications of control activities have also been identified in the definition of control activities, in accordance with the five following criteria:

- Scope: depending on the scope of the control activities, they can be divided into:
  - General control activities.
  - Processes control activities.

- Level of automation: depending on the level of automation of the control activities, they can be divided into automatic and manual.
- Nature of the activity: depending on the nature of the control activities, they can be divided into preventive or detection activities.
- Frequency: depending on the recurrence which the activity has over the course of time, for example; annual, monthly, weekly, daily, etc.

Lastly, the ICFR of Naturgy includes the definition of the annual internal certification model of the controls identified in the critical processes which have to be performed by the business, services and projects units involved in the process of drawing up financial information. The Internal Control for Financial, Corporate and Business Reporting teams are responsible for launching and monitoring this certification process. In order to carry out this internal certification process, the units taking part use the functionalities integrated in the SAP GRC Process Control application for managing the ICFR of Naturgy (see section F.2.1).

The Internal Audit Unit is responsible for reviewing and assessing the conclusions regarding the compliance and effectiveness of the annual internal certifications process of the units which are responsible for carrying out the controls, review of the weaknesses and action plans designed for their correction.

**F.3.2. Internal control policies and procedures on information systems (inter alia, on access security, control of changes, operation thereof, operating continuity and separation of functions) which support the relevant processes of the company in drawing up and publishing financial information.**

For the critical processes associated with the drawing up and publication of the financial reporting of Naturgy which have been defined in the ICFR of the group, the control activities which operate in information systems have been defined, both for those used directly in preparing their financial information and for those which are relevant in the process or control of the transactions included in it.

At general level, within the reporting systems map of Naturgy, a series of policies have been defined and implemented to guarantee the following aspects:

- Security of access to both data and applications.
- Control of changes in applications.
- Correct operation of applications.
- Availability of data and continuity of applications.
- Adequate separation of functions.
- The correct regulatory compliance (GDPR)

a) Secure access:

A series of measures have been defined at different levels to guarantee confidentiality and to prevent unauthorised access to data and/or applications. Most internal users are managed and authenticated in a centralised way in the OIM (Oracle Identity Manager) Directories, which ensure they remain confidential.

The company has two main Data Processing Centres (DPC) in Madrid, to facilitate availability of information systems in the event of any contingency. Only authorised staff are able to access these facilities, all accesses are registered, and they are subsequently inspected to check for any possible anomalies.

Communications with these systems include systems such as Firewall, IPS (Intrusion Prevention System) and antivirus (signature and behaviour based) to internally reinforce control against threats.

A password policy that establishes a set of requirements for their definition and maintenance has been included in the Identity Management Model: minimum length, complexity, impossibility for repeating the password, maximum and minimum validity, encrypted, user blocks after period of inactivity, etc.

In addition, the Company is working on the implementation of Multiple-Factor Authentication (MFA) access model to make more robust access controls and identity assurance.

Furthermore, the CyberSOC (Security Operations Centre) is monitoring all the alerts created by failed or abnormal access attempts, applying to this information an intelligence level that analyses and interprets the data relating to said attempts (timestamp, location...), enabling decisions to be taken early on that prevent hypothetical unauthorised access, such as blocking accounts, filtering on access, password change.

Likewise, the Company is working on the creating and updating of the BRS (Business Recovery Systems) of the main information systems, for the recovery and restoration of critical interrupted functions.

Finally, at application, operating system and database level, the user-password combination is used as preventative control. At a data level, profiles have been defined that limit access thereto. Naturgy is developing a project for the definition and implementation of users/roles/profiles matrix for the enhancement of the segregation of functions that ensures the procedures for access to systems and data.

#### b) Change control:

A change management methodology has been developed and implemented based on best practices, setting out the precautions and validations which are necessary to limit risk in that process.

Some of the main aspects it includes are as follows:

- Approval by the Technical Committee, Changes Committees and Business.
- Carrying out tests in the different environments before passing to production.
- Specific environments for the development and tests tasks.
- Roll-back procedures.
- Separation of functions in most of the environments between development and production teams.
- Monitoring and control in any phase of development.
- User manuals and training courses.
- Regular maintenance of changes documentation.

#### c) Operation:

To guarantee that operations are carried out correctly, monitoring is conducted at four levels:

- All interfaces between systems are monitored to ensure they are correctly executed.
- At perimeter level, there are different availability indicators to prevent interruptions in communications.
- Automatic validations on the data entered so that they are in line with expectations based on their nature, rank, etc.

- Of the infrastructures which support applications.

There is also an internal Help Desk service which final users can contact, and they also have management tools at their disposal to report any kind of discrepancy.

d) Availability and continuity:

The majority of the systems have a high degree of local availability, and the servers thereof are situated in the same DPC, and in certain cases, in the support DPC for critical aspects. The high availability of information systems allows them to remain available should any incidents arise.

A backup copy is made regularly, and temporarily kept in a temporary secure location based on the legal requirements established for each system. The data are copied and stored in different locations, so preventing any loss of information. In order to restore these data there is a specific procedure, although tests are not carried out regularly.

e) Segregations of functions:

Access to the Information Systems is defined based on roles and profiles which define the functionalities to which a user must have access. These profiles are used to limit user access to Information Systems.

f) Regulatory compliance: GDPR

Naturgy complies with the provisions of Regulation (EU) 2016/679 of the European Parliament and the Council of 27 April 2016 on the protection of natural persons with regard to the processing of personal data and the free movement of such data, and with the provisions of Organic Law 3/2018, of 5 December, on the Protection of Personal Data and the guarantee of digital rights, as well as with the other provisions on data protection, to grantee the protection of data of a personal nature of its directors, employees, customers, suppliers, shareholders, investors and other stakeholders.

Naturgy, when it is the Data Controller, performs as many actions as necessary to comply with the legislation on data protection including and not limited to the following:

- It processes personal data in a lawful, sincere and transparent manner.
- It collects data for specific, explicit and legitimate purposes.
- It minimises the data subject to processing.
- It updates the data, providing data subjects with simple systems for this update.
- It limits the data storage periods.
- It applies appropriate technical and organisational measures to guarantee the security, integrity and confidentiality of the data.
- It obtained the consent of the data subject for processing whenever necessary.
- It introduces simple and adequate mechanisms so that the data subject, directly or through their legal or voluntary representation, can exercise their rights pursuant to prevailing legislation.
- It chooses data processors that offer sufficient guarantees to apply appropriate technical and organisational measures so that data processing is carried out in compliance with the requirements of relevant legislation.

In addition it signs agreements with these data processes through which the data processor will only process data in accordance with the instructions given by the data controller, and will not apply the data or use them for any purpose other than then one set out in this agreement, and will not disclose them, even for safeguarding purposes, to third parties.

- It keeps a record of data-processing activity.
- It carries out impact assessments it deems appropriate.
- It has a collegiate body that acts as Data Protection Office.
- It makes the appropriate queries with the Spanish Data Protection Agency (AEPD) on issues of international transfers of personal data.
- It performs audits to grantee compliance with data protection regulations.
- 

Under Article 32 of the GDPR that conditions security measures to the technology, Naturgy adopts the measures deemed technically appropriate that guarantee the security of personal data and avoids alteration, loss, processing or unauthorised access guaranteeing the confidentiality, integrity and availability of the data.

Naturgy carries out two-yearly audits of their Information Systems with the objective of complying with that set forth in the Regulation, as well as in all the procedures and instructions related to data protection.

**F.3.3. Internal control policies and procedures for supervising the management of activities subcontracted to third parties, and those assessment, calculation or valuation questions entrusted to independent experts, which could have a material impact on the financial statements.**

Naturgy has developed a series of policies and procedures used to supervise the management of activities subcontracted to third parties, all of which are approved by the levels established in the group, which include a “Global Policy for External Contracting”, a “Global Policy for Quality Suppliers” and the procedures which implement them, and the “Counterparty Due Diligence Procedure (corruption and reputational risks)”.

In this context, in the “Global Policy for External Contracting”, Naturgy sets out the general principles which have to be applied to all contracting of goods and services, guaranteeing a uniform, efficient and sustainable quality model for managing the Procurement process in Naturgy.

This Policy also determines the responsibilities of the different units in the contracting process, establishing a series of compulsory objectives that assure control over contracting activities to third-parties, as part of the same promoting productive and long-lasting relationships with suppliers, implementing impartial mechanisms of assessment, selection and monitoring, ensuring that the supply chain complies with the principles provided for in the Supplier Code of Ethics, that the suppliers must ratify and the terms of which are sourced from the Code of Ethics of Naturgy, from the Human Rights Policy, from the Health and Safety Policy, from the Anti-Corruption Policy, as well as from internationally recognised principles of good governance. Likewise, initial evaluation of the contracting of the suppliers is compulsory to minimise exposure to risk of the companies, in accordance with the activity and environment in which they operate. For this purpose, the Company evaluates, inter alia, legal, financial, quality, safety, environmental and corporate responsibility aspects. In certain critical processes an additional level of control is required, that is referred to as “certification”, which is supported by documentary evidence and/or audits in order to secure the quality of the goods and services that are acquired.

In the global Policy for suppliers and the procedure that it develops, the general principles which have to be applied to the assessment, monitoring and development of the suppliers, as well as the quality offered of the products and services acquired or installed, guaranteeing a homogeneous, efficient and sustainable model in Naturgy are established. The establishment of procedures and controls that guarantee the compliance of requirements set out in the specifications by potential suppliers and awarded contractors and furthermore also requires the certification of the suppliers of certain services or materials identified as of high-risk (operating risk, legal risk, health and safety risk, quality risk, and environmental-social-governance risk). The approval process may unveil anomalies that lead to a plan of corrective actions, or the non-approval of the supply, which would prevent such supplier from performing this activity for Naturgy. Furthermore, the measurement of performance is carried out by means of satisfaction surveys of the service provided by suppliers that carry out high risk activities, with special attention on health and safety aspects. The necessary corrective measures or actions plans are established, as the case may be.

The Business Units carry out the supervision and quality control of its suppliers to determine if they offer the levels of quality required to the works. If not, they send the proposals for the withdrawal of certification/authorisation to supplier/products/persons as a result of the deficiencies in the performance of services or products.

The main areas which affect the critical processes of the financial information that Naturgy has subcontracted to third parties are as follows:

- Certain processes of the Systems area.
- Reading and measuring processes.
- Certain customer service processes.
- Logistics operator.
- Payroll and staff management process.
- Works management and maintenance of the distribution business.
- Certain services to customers of the retail business.

Naturgy uses experts in works which are used for support to valuations, judgements or accounting calculations, only when they are registered in the corresponding Professional Colleges, or have an equivalent certification, show their independence and are companies which the market considers to be prestigious.

Naturgy has also defined the “Counterparty Due Diligence Procedure” which, in general terms, is designed to cover the main legal and reputational risks involved in business relations with third parties, and in particular, covering misconduct associated with the risk of corruption.

In 2019, monitoring of online reputational risks of the supplier portfolio was introduced with respect to their commercial relationship with Naturgy through the use of a Screening tool for identifying exposure to the reputational risk of the counterparties and decision-taking depending on the risk identified in coordination with the Compliance Unit.

The Internal Auditing Unit of Naturgy audits the processes and correct application of the Procurement, Suppliers and Counterparty Due Diligence Policies and Procedures and, if breaches are detected then the pertinent corrective actions are taken.

#### **F.4 Information and communication**

**State, duly detailing their main characteristics, whether, at least, the following aspects exist:**

**F.4.1. A specific function responsible for defining accounting policies (area or department of accounting policies), keeping them up to date, and resolving doubts or conflicts arising from their interpretation, keeping fluid communications with the persons responsible for operations in the organisation, as well as a manual of accounting policies which is up to date and communicated with the units through which the entity operates.**

One of the responsibilities, inter alia, of the Corporate Financial Unit, via the Accounting Planning Unit, is to keep the accounting policies applicable to the group to date. In this regard, it is responsible for updating the “Naturgy Accounting Plan”, which includes the group’s accounting criteria and accounts plan and an analysis of the accounting changes which might have an impact on the financial report of Naturgy.

The “Naturgy Accounting Plan” is usually updated every year. Both the accounting criteria on the basis of changes in the IFRS-EU standards applicable and the group’s accounting structure are reviewed in the updates, ensuring the traceability between the Individual Account Plans of the group’s subsidiaries and the Accounting Plan of Naturgy, that constitutes the basis for the drafting of the different financial reporting to be provided to external bodies as well as the Management Control information.

Once the Accounting Plan is updated, it is disseminated to all the personnel of the organisation via the Naturgy Intranet. Furthermore, after the updated accounting plan is published on the Intranet, an on-line alert is sent to users who access the Intranet, thus informing all the staff of the update.

On the other hand, the Accounting Planning Unit is responsible for analysing the EU-IFSR regulations that might have a significant impact on financial statements and for reporting to the Naturgy management affected by any such regulatory changes. It is also entrusted with the task of resolving questions regarding the account entry of specific transactions that may be considered by those responsible for Naturgy financial reporting.

**F.4.2. Mechanisms for the capture and preparation of financial information with uniform formats, applied and used by all units of the company of the group, used to support the main financial statements and the notes, as well as the information set out in detail on the ICFR.**

The complete economic-financial management model of Naturgy guarantees that the administrative and accounting processes are uniform by means of centralising the administrative transactional and accounting processes and in Economic-Financial Shared Services Centres (CSCs) and the accounting processes in the Administration and Operational Monitoring of the Business units; as well as the use of SAP as a support system in the majority of the companies which form part of the group. The other companies which do not use SAP are obliged to follow the criteria established by the group to ensure that such processes are uniform.

The most important features of the aforesaid model are as follows;

- It is unique for all countries and businesses;
- It includes the legal, fiscal, mercantile and regulatory requirements of the countries;
- It includes internal control requirements;
- It is used as a base for obtaining information furnished to Management Staff and to official bodies;
- It is supported by a certain organisational model and unique economic and financial reporting processes and systems for all countries and businesses.

The IFRS-EU financial statements of each country are obtained directly through the local account-group account assignment and the registration of IFRS-EU adjustments in the SAP application.

As part of the group ICFR, the interrelationships map of all the critical processes for drawing up financial information of Naturgy has been defined. The aforesaid map defines a number of things, including the reporting systems which take part in the process of drawing up and issue of financial information both from the standpoint of individual closing of accounts and the closing of the consolidated accounts.

Accordingly, in the processes of drawing up the consolidated financial reporting and its breakdowns in the ambit of the Naturgy group, the SAP BPC application is used, which is a SAP application for managing the consolidation process.

The information is uploaded in the two systems automatically and directly, once the month is closed.

These two applications help in managing the consolidation process in tasks such as:

- Standardisation of the information.
- Validation of the information.

The preparation of the consolidated financial reporting is done centrally in the Consolidation Unit, which ensures the integration, uniformity, coherence and streamlining of Naturgy's consolidated financial statements.

Naturgy also has local accounts plans to comply with accounting, fiscal, mercantile and regulatory requirements established by the different laws of the countries in which it operates. Those local accounting plans are conflated into a group accounting plan, which is unified and homogeneous for the purposes of consolidation and reporting of financial information.

## **F.5 Supervision of the functioning of the system**

**Report on, duly detailing their main characteristics, at least:**

- F.5.1. The supervision activities of the ICFR carried out by the Audit Committee and whether the company has an internal audit function which includes the responsibility of supporting the committee in its task of supervising the internal control system, including the ICFR. Information will also be provided on the scope of the assessment of ICFR carried out during the year and on the procedure through which the party responsible for carrying out the assessment notifies its results, if the company has an action plan with details of the**

**possible corrective measures, and if its impact on financial information has been taken into account.**

The Audit Committee has the powers that are provided for by Law, as well as the specific or general powers that are delegated upon it by the Board of Directors. The powers thereof include the following:

- Supervising the preparation and integrity of the financial information related to the Company and, where applicable, the Group, reviewing compliance with the standard requirements, the appropriate definition of the consolidation perimeter and the correct application of the accounting criteria.
- Overseeing the effectiveness of the internal control of the Company, internal audit, and risk management systems, including tax risks, and discuss with the Auditors the significant weaknesses of the internal control system detected during the carrying out of the audit.
- Notifying the General Meeting of Shareholders regarding the questions that are raised thereby in relation to the aspects for which the Committee is responsible.
- Submitting to the Board of Directors proposals for the selection, appointment, re-election and replacement of the External Auditor, as well as the conditions of their contracting and regularly collecting information on the Audit Plan and its execution, in addition to preserving its independence in the exercise of its functions.
- Establishing the appropriate relations with the Accounts Auditor to receive information on any issues which could jeopardise their independence, to be examined by the Committee, and any other matters relating to the progress of the audit, as well as any communications required pursuant to legislation governing accounts auditing and auditing standards. In any event, the Committee must receive, annually, from the External Auditors the declaration of their independence in relation to any directly or indirectly related parties, as well as the information regarding the additional services of any type whatsoever provided thereby and the corresponding professional fees received from said entities by the External Auditor or by the persons or related parties thereof, in accordance with the provisions of accounts audit legislation.
- Annually issue, prior to the issue of the audit report, a report giving an opinion on the independence of the Auditors. This report shall in all cases include a valuation of the additional services provided, as referred to in the previous section, considered separately and in their entirety, consisting of services other than statutory audits and how they relate to the requirement of independence or to the regulatory legislation on auditing.
- Ensuring the independence of the unit handling the internal audit function; approve its priorities and work programmes, ensuring that its focuses primarily on the main risks the Company is exposed to; receive regular reports on its activities; and verify that senior management is acting on the findings and recommendations of its reports. Propose to the Chairman of the Board of Directors the selection, appointment, re-election and removal of the person responsible for the internal audit service, as well as proposing the budget for that service, with the final decision corresponding to the Chairman of the Board of Directors.

In order to be able to comply with its responsibilities, the Audit Committee has the information and documentation provided by the Internal Audit and the Corporate Financial Department.

The Internal Audit function is established in Naturgy as a means of independent and objective assessment and for this reason the Internal Audit

Unit, reports to the Audit Committee of NATURGY ENERGY GROUP S.A.

It has the task of guaranteeing the continuous review and improvement of the Group's internal control system, as well as safeguarding compliance with external and internal norms and the Control Models established in order to safeguard the effectiveness and efficiency of operations, and to mitigate the main risks in each one of the fields in which the Group operates, in particular the operational, corruption, fraud and legal risks. Likewise, it is responsible for the report of the internal audit activity to the Audit Committee.

In the performance of its activity, Internal Auditing methodically reviews the internal control system of the Group's processes in all areas, and also assesses the operational risks and controls associated to these processes, (including those established in the ICFR and the Crime Prevention Model), through definition and execution of the Annual Internal Audit Plan, to improve effectiveness and efficiency of these. It also provides support to the divisions in achieving their objectives.

The overall aim is to safeguard the effectiveness and efficiency of operations and mitigate the main risks in each sphere of Naturgy, in particular the operational, corruption, fraud and legal risks.

The Strategic Audit Plan (with a time frame of five years) and the Annual Internal Audit Plans are drawn up principally on the basis of the Corporate Strategic Plan, the risk areas included in the Corporate Risk Map, the Internal Control System of Financial Reporting (ICFR) Scope Matrix, the operational risk maps, the results of previous years' audits and the proposals from the Audit Committee and from top-tier management.

In accordance with the Strategic Audit Plan for processes, it is expected that the Internal Control System governing the ICFR of Naturgy is fully supervised by Internal Auditing in a period of five (5) years.

The methodology for the assessment of operational risks is in accordance with best corporate governance practices, based on the conceptual framework of the COSO Report (Committee of Sponsoring Organisations if the Treadway Commission) and on the basis of the types of risks defined in the company's Corporate Risk Map.

The operational risks associated with the processes are prioritised by assessing their incidence, relative importance and degree of control. Depending on the findings, the company designs an action plan with corrective measures that enable mitigation of residual risks identified with a potential impact above the tolerable or accepted risk established.

Internal Auditing is supported by the implementation of a SAP environment corporate application which it uses to manage and document internal audit projects in accordance with the defined methodology.

More specifically and with regard to the Internal Control System on Financial Reporting (ICFR), Internal Auditing is in charge of:

- Supervising the general model of the system for Internal Control of Financial Reporting (ICFR) and the effectiveness of the associated controls, through the execution of the Annual Audit Plan within a multi-year time frame (in full within a period of five (5) years).

- Supervising the certification process performed by those parties responsible for the ICFR controls (in full within a period of five (5) years).
- Within the scope defined, inform the Audit Committee of the results and the weaknesses identified in the ICFR, presenting the main aspects detected in the internal audits of the ICFR and their monitoring, related to the general model and the controls governing ICFR processes.

With regard to the Crime Prevention Model, the Internal Audit Area is in charge of its annual supervision to make reasonably sure that the model is efficient and effective at preventing, identifying and mitigating the occurrence of crimes provided for under applicable legislation.

The main processes revised by the Internal Audit in 2019 were as follows:

- Gas networks: outages, disconnection/reconnection, energy control, network construction, training and commissioning, network maintenance,
- Electricity grids: grid development, grid maintenance, service provision, logistics.
- Generation: operation and generation assets maintenance, storage management, development and implementation of new projects, fuel purchases.
- Commercialisation (gas, electricity and services): contracts administration and access, access management, maintenance of power installations.
- Gas supply: management and monitoring of contracts.
- LNG: LNG invoicing, collection and payments.
- Customer Service: invoicing, debt management.
- Physical resources management: management of purchases and service contracting
- Management of internal control: monitoring of corrective actions, ICFR
- Management of information systems: information security and cybersecurity, guarantee of continuity and availability of the Information Systems (IS)
- Economic and financial resources management: treasury stock, economic-administrative management operations.
- Legal advice and support: powers of attorney.
- Review of the Group’s regulatory system
- Code of Ethics channel
- Crime Prevention Model.
- Continuous auditing

41% of the reviewed processes correspond to Spain with the remaining 59% to the international ambit.

Controls on the above processes relating to the Financial Information, were reviewed in accordance with the work methodology described above.

**F.5.2. If the company has a discussion procedure through which the accounts auditor (as established in the TAS), the internal audit function and other experts can inform the company senior management and the Audit Committee or administrators of significant weaknesses in internal control identified during the annual accounts review processes or others which might have been**

**entrusted to them. The company shall also state whether it has an action plan to try to correct or mitigate the weaknesses observed.**

As established in Article 6 of the Regulation of the Board:

The Board shall meet eight (8) times a year and, on the Chairman's initiative, as many times as he/she considers it appropriate for the smooth running of the Company or when requested by at least one-third (1/3) of the Directors.

The Members of the Board of Directors, in order to obtain the information necessary for them to carry out their duties, shall be aided by the Audit Committee, whose duties include the knowledge and supervision of the process for drawing up regulated financial information, and the effectiveness of the internal control system.

In accordance with the Articles of Association and Regulations of the Board of Directors and its Committees, the Audit Committee shall comprise of a minimum of three (3) and a maximum of seven (7) directors appointed by the Board of Directors from among the non-executive directors, and at least one (1) of them will be assigned with taking into account their knowledge and experience in issues of accountancy and auditing or both. Its members shall leave their post when they do so in their capacity as Directors or as agreed by the Board of Directors. The majority of the Committee Members will be Independent Directors. At 31 December 2019, the Committee was made up of seven (7) Directors, three (3) Proprietary Directors and four (4) Independent Directors with one (1) being, in turn, the Chairman.

The Board of Directors shall elect the Chairman from among the Members of the Committee; the Chairman shall not have the casting vote. The Secretary of the Committee shall be the same as the Secretary of the Board of Directors.

The Committee shall hold meetings whenever necessary in order to issue its reports, and will be convened by its Chairman on his/her own initiative or upon prior request of two (2) of its Members. At least four (4) meetings per year must be held. The Committee may invite to its meetings any executive or employee it deems appropriate.

The sphere of activity of the Audit Committee extends to:

- NATURGY ENERGY GROUP, S.A.
- Companies that are majority-owned by NATURGY ENERGY GROUP, S.A.
- Other entities and companies for which NATURGY ENERGY GROUP S.A. has in some form the effective control or responsibility for management or operation.

The Internal Audit Unit regularly reports to the Audit Committee on the actions taken to ensure that Naturgy complies with all the policies, standards and controls of the processes established by the top-tier Management of the Group.

They also present:

- The Annual Internal Audit Plan for the committee's approval.

- The degree of execution of the Internal Audit Plan and the main conclusions and recommendations included in the Internal Audit Reports.
- The assessment and the effectiveness of the Control System and assessment of operational and Internal Control risks of Naturgy (including those referring to ICFR and the Crime Prevention Model), including corresponding to Action Plans to improve the level of internal control.
- The level of implementation by the audited units of the corrective measures appearing in the Auditor's Reports, in particular those proposed by the Audit Committee.

The External Auditor informs the Audit Committee of the weaknesses in internal control detected during the audit. The External Auditors also report on the main conclusions they have reached in the review of internal control, regarding the risks assessment and action plans.

Finally, the External Auditor, in addition to meeting periodically with the Audit Committee, also meets with the Board of Directors in plenary session before the latter formulates the Annual Accounts.

## F.6 Other relevant information.

As indicated in section F.3.1. above, as part of the model for the assessment of the Internal Control System of Financial Reporting of Naturgy, it has been decided to carry out an internal certification process whereby, through SAP GRC Process Control, the Business, Services and Projects Units which are involved in the process of drawing up financial reporting guarantee that the identified controls are applied within their processes and that they are valid and sufficient. They also inform the Internal Control of Financial Reporting team of the weaknesses and/or shortcomings detected and of changes arising in their processes so as to assess if they need to develop new controls or modify existing ones.

During the 2019 year, Naturgy carried out the annual internal certification process, whereby changes were identified in a limited number of processes. Importantly, those changes did not necessitate a modification of the control activities previously identified, so that the risks associated with the preparation and reporting of financial reporting were considered to be covered in the critical processes affected. The main items of this process were as follows:

	Spain	International	Total
Business and corporate units	178	183	361
Processes identified	59	176	235
Controls certified	906	1,485	2,391

Action plans were also identified due to weaknesses in evidence of controls, which amounted to 33, out of which four (4) were in Spain. During 2019, 34% of the action plans identified in 2018 were resolved, and new plans arose during 2019. In any event, the subprocesses affected by the aforesaid action plans do not have a significant impact on the quality of financial reporting.

## F.7 Report of the external auditor

**State:**

**F.7.1. If the ICFR information submitted to the markets has been reviewed by the External Auditor, in which case the company will have to include the corresponding report as an annex. Otherwise, it will have to explain why.**

Naturgy has deemed it pertinent to ask the External Auditor to issue a report referring to the information on the Internal Control System of Financial Reporting (ICFR).

**G DEGREE OF COMPLIANCE WITH THE CORPORATE GOVERNANCE RECOMMENDATIONS**

**State the degree of compliance of the Company in respect of the recommendations regarding the Good Governance Code of Listed Companies.**

**If any recommendations are not followed or are followed partially, it will be necessary to include a detailed explanation of the reasons why so that the shareholders, investors and the market in general, have sufficient information to be able to assess the company's actions. General explanations are not acceptable.**

**1. The Articles of Association of listed companies should not limit the maximum number of votes that can be issued by the same shareholder or contain other restrictions that prevent the company from being taken over through the purchase of its shares on the market.**

Compliant X Explain

**2. When the parent company and the subsidiary are listed, they must both publicly define the following in detail:**

**a) The respective areas of activity and possible business relationships between them, as well as those of the listed subsidiary with the remaining group companies;**

**b) The mechanisms in place to solve possible conflict of interest that may occur.**

Compliant Partially compliant Explain Not applicable X

**3. During the annual general meeting the Chairman of the Board should verbally inform shareholders in sufficient detail of the most relevant aspects of the Company's corporate governance, supplementing the written information circulated in the annual corporate governance report. In particular:**

**a) Changes taking place since the previous annual general meeting.**

**b) The specific reasons for the Company not following a given Good Governance Code recommendation, and any alternative procedures followed in its stead.**

Compliant X Partially compliant Explain

**4. The Company should draw up and implement a policy of communication and contracts with shareholders, institutional investors and proxy advisers that complies in full with market abuse regulations and accords equitable treatment to shareholders in the same position.**

**This policy should be disclosed on the company's website, complete with details of how it has been put into practice and the identities of the relevant interlocutors or those charged with its implementation.**

Compliant **X**                      Partially compliant                      Explain

- 5. The Board of Directors should not make a proposal to the general meeting for the delegation of powers to issue shares or convertible securities without pre-emptive subscription to rights for an amount exceeding 20% of capital at the time of such delegation.**

**When the Board approves the issuance of shares or convertible securities without pre-emptive subscription rights, the company should immediately post a report on its website explaining the exclusion as envisaged in company legislation.**

Compliant **X**                      Partially compliant                      Explain

- 6. Listed companies drawing up the following reports on a voluntary or compulsory basis should publish them on their website well in advance of the ordinary general meeting, even if their distribution is not obligatory:**

- a) Report on auditor independence.**
- b) Reports on the operation of the Audit Committee and the Appointments and Remuneration Committee.**
- c) Audit Committee report on related party transactions.**
- D) Report on corporate social responsibility policy.**

Compliant **X**                      Partially compliant                      Explain

- 7. The company should broadcast its general meetings on the corporate website.**

Compliant **X**                      Partially compliant                      Explain

- 8. The Audit Committee should strive to ensure that the Board of Directors can present the Company's accounts to the General Meeting of Shareholders without limitations or qualifications in the Auditor's report. In the exception case that qualifications exist, both the Chairman of the Audit Committee and the Auditors should give a clear account to Shareholders of their scope and content.**

Compliant **X**                      Partially compliant                      Explain

- 9. The Company should disclose its conditions and procedures for admitting share ownerships, the right to attend the General Meeting of Shareholders and the exercise or delegation of voting rights, and display the permanently on its website.**

**Such conditions and procedures should encourage shareholders to attend and exercise their rights and be applied in a non-discriminatory manner.**

Compliant **X**                      Partially compliant                      Explain

- 10. When an accredited shareholder exercises the right to supplement the Agenda or submit new proposals prior to the General Meeting of Shareholders, the company should:**

- a) Immediately circulate the supplementary items and new proposals.**
- b) Disclose the model of attendance card or proxy appointment or remote voting form duly modified so that the new agenda items and alternative proposals**

can be voted on in the same terms as those submitted by the Board of Directors.

- c) Put all these items or alternative proposals to the vote applying the same voting rules as for those submitted by the Board of Directors, with particular regard to presumptions or deductions about the direction of the votes.
- d) After the General Meeting of Shareholders, disclose the breakdown of votes on such supplementary items or alternative proposals.

Compliant      Partially compliant      Explain      Not applicable **X**

11. In the event that the company plans to pay for attendance at the General Meeting of Shareholders, it should establish a general, long-term policy in this respect.

Compliant      Partially compliant      Explain      Not applicable **X**

12. The Board of Directors should perform its duties with unity of purpose and independent judgement, affording the same treatment to all Shareholders in the same position. It should be guided at all times by the company's best interests, understood as the creation of a profitable business that promotes its sustainable success over time, while maximising its economic value.

In pursuing the corporate interest, it should not only abide by laws and regulations and conduct itself according to principles of good faith, ethics and respect for commonly accepted customs and good practices, but also strive to reconcile its own interests with the legitimate interests of its employees, suppliers, clients and other stakeholders, as well as with the impact of its activities on the board community and the natural environment.

Compliant **X**      Partially compliant      Explain

13. The Board of Directors should be an optimal size to promote its efficient functioning and maximise participation. The recommended range is accordingly between five (5) and fifteen (15) members.

Compliant **X**      Partially compliant      Explain

14. The Board of Directors should approve a Director Selection Policy that:

- a) Is specific and verifiable.
- b) Ensures that appointment or re-election proposals are based on a prior analysis of the Board's needs.
- c) Favours a diversity of knowledge, experience and gender.

The results of the prior analysis of the Board needs should be written up in the Appointments Committee's explanatory report, to be published when the General Meeting of Shareholders is convened that will ratify the appointment and re-election of each director.

The Director Selection Policy should pursue the goal of having at least 30% of total Board places occupied by female directors in 2020.

**The Appointments Committee should run an annual check on compliance with the Director Selection Policy and set out its findings in annual corporate governance report.**

Compliant    Partially compliant    **X**    Explain

The policy for the selection of Directors ensures that the selection procedures do not suffer from implicit biases that may imply any discrimination, within the framework of full respect for the right of proportional representation of the shareholders recognised in Law. The policy for the selection of directors is aimed at ensuring adequate diversity in the composition of the Board of Directors, which has led to Board members responding to professional profiles and different and complementary career paths among themselves, based on the conviction that said diversity results in better performance of the Board. Within this framework, the Board pays attention to issues of gender diversity. Although the goal of having females represent one third (1/3) of the Board in 2020 has not been made explicit, the Board is firmly committed to the principle of diversity in its composition in all its manifestations, and has made proposals for the incorporation of new directors following the recommendations of profiles resulting from the self-assessment exercise assisted by the independent External Consultant, as well as those resulting from the Competency Matrix approved by the Board of Directors.

Although the Company shares the willingness to increase the presence of females on the Board up to at least 30%

**15. Proprietary and independent directors should constitute an ample majority on the Board of Directors, while the number of executive directors should be the minimum practical bearing in mind the complexity of the corporate group and the ownership interests they control.**

Compliant    **X**    Partially compliant    Explain

**16. The percentage of proprietary directors out of all non-executive directors should not be greater than the proportion between the ownership stake of the shareholders they represent and the remainder of the company's capital.**

**This criterion can be relaxed:**

- a) In large cap companies where few or no equity stakes attain the legal threshold for significant shareholdings.**
- b) In companies with a plurality of shareholders represented on the Board but not otherwise related.**

Compliant **X**    Explain

**17. Independent directors should be at least half of all Board members.**

**However, when the company does not have a large market capitalisation, or when a large cap company has shareholders individually or concertedly controlling over 30% of capital, independent directors should occupy, at least one third (1/3) of the Board places.**

Compliant    Explain **X**

The company comfortably meets the objective of having a higher percentage of independent directors than the free float percentage. The Company has three (3) shareholders who do not act in concert and who have a shareholding equal to or greater

share than 20%. All three have exercised their legal right to proportional representation, so by legal imposition it is impossible to comply with the recommendation. Out of respect for prevailing legislation and the special shareholder configuration of the Company means that, for legal reasons, this recommendation cannot be complied with if shareholders with more than 8.33% of the share capital wish to exercise their right to proportional representation, which is the case. Current legislation establishes the principle of proportional representation, for which reason the Company is obliged to guarantee respect for the legitimate exercise of that right by its shareholders.

At present, the number of independent directors is five (5) out of a total of twelve (12) directors, in other words, they represent 41.6% of the directors which is a percentage much higher than the free float. Conversely, the significant shareholders of the Company hold, as a whole, 65.62% of the capital and have proposed 50% of the Directors (in total 6 out of 12). While this is maintained, out of respect for the legal mandate of proportionality, the number of independent directors cannot be equal to half of the total number of directors. In any case, the figure of five (5), apart from quantitatively being the one according to the law, has qualitative relevance: a modification of the Board Regulations has established that, for matters of greater relevance, an enhanced majority of more than two thirds (2/3) is required, which amounts to a possibility of blocking the set of independent directors.

**18. The companies should publish the following information about their directors on their website and keep the said information up-to-date.**

- a) **Background and professional experience.**
- b) **Directorships held in other companies, listed or otherwise, and other paid activities they engage in, of whatever nature.**
- c) **Statement of the director class to which they belong; in the case of proprietary directors indicating the shareholder they represent or have links with.**
- d) **Dates of their first appointment as Board member and subsequent re-elections.**
- e) **Shares held in the company, and any options on the same.**

Compliant  Partially compliant Explain

**19. The annual corporate governance report, with prior verification by the Appointments Committee is to provide an explanation for the reasons proprietary directors were appointed at the behest of shareholders whose stake in the company is less than 3% of share capital, and reasons given for the rejections of formal requests for board representation from shareholders who have successfully requested the appointment of proprietary directors.**

Compliant Partially compliant Explain Not applicable

**20. Proprietary directors are to submit their resignation when the shareholder whom they represent fully disposes of their stake. They should also present their resignation, in the corresponding number, when the said shareholder lowers his/hers shares in the company to a level that requires a reduction in the number of his/her proprietary directors.**

Compliant  Partially compliant Explain Not applicable

**21. The Board of Directors should not propose the removal of independent directors before the expiry of their tenure as mandated by the Articles of Association, except where just cause is found by the Board, based on a report from the Appointments Committee. In particular, it shall be understood that there is just cause when the**

director takes on new offices or assumes new obligations that prevent them from devoting the time necessary to perform the duties of the office of director, breaches the duties inherent to their position or is affected by one of the circumstances that cause them to lose their independent status in accordance with the provisions of applicable law.

The removal of independent directors may also be proposed as a consequence of offers for the takeover, merger or similar corporate actions affecting the company that may involve a change in the company's capital structure, whenever such changes in the Board of Directors arise under application of the proportionality criterion pointed out in Recommendation 16.

Compliant **X** Explain

22. Companies are to stipulate rules obliging directors to inform of and, as the case may be, resign in situations that may harm the credit and reputation of the company. In particular, they are to inform the Board of Directors of any criminal cases for which they are under indictment, and of their subsequent legal proceedings.

The moment a director is indicted or tried for any of the offences stated in company legislation, the Board of Directors should open an investigation and, in light of the particular circumstances, decide whether or not he or she should be called on to resign. The Board of Directors should give a reasoned account of all such determinations in the annual corporate governance report.

Compliant **X** Partially compliant Explain

23. All directors are to clearly express their opposition when they consider that any proposal subject to the decision of the Board of Directors may be detrimental to corporate interests. The independent directors and other directors who are not affected by the potential conflict of interest are to voice their opposition in a special manner whenever such decisions may be of detriment to shareholders not represented on the Board of Directors.

When the Board makes material or reiterated decisions about which director has expressed serious reservations, then he or she must draw the pertinent conclusions. Directors resigning for such causes should set out their reasons in the letter referred to in the next recommendation.

The terms of this recommendation also apply to the secretary of the board, even if he or she is not a director.

Compliant **X** Partially compliant Explain Not applicable

24. Directors who give up their place before their tenure expires, through resignation or otherwise, should state their reasons in a letter to be sent to all Members of the Board. Whether or not such resignation is disclosed as a Relative Fact, the motivating factors should be explained in the annual corporate governance report.

Compliant **X** Partially compliant Explain Not applicable

25. The Appointments Committee should ensure that non-executive directors have sufficient time available to discharge their responsibilities effectively.

The Board of Directors regulations should lay down the maximum number of company Boards on which Directors can serve.

Compliant Partially compliant **X** Explain

Owing to the high level of participation and attendance at the sessions of the governing bodies by the Members of the Board, to date the company has not established any rules on the number of Boards on which the said Directors can sit.

- 26. The Board should meet with the necessary frequency to properly perform its functions, eight (8) times a year at least, in accordance with a calendar and agendas set at the start of the year, to which each Director may propose the addition of initially unscheduled items.**

Compliant  Partially compliant  Explain

- 27. Director absences should be kept to a strict minimum and quantified in the annual corporate governance report. In the event of absence, Directors should delegate their powers of presentation with the appropriate instructions.**

Compliant  Partially compliant  Explain

- 28. When Directors or the Secretary express concerns about some proposal or, in the case of Directors, about the company's performance, and such concerns are not resolved at the meeting, they should be recorded in the Minutes if the person expressing them so requests.**

Compliant  Partially compliant  Explain  Not applicable

- 29. The Company should provide suitable channels for Directors to obtain the advice they need to carry out their duties, extending if necessary to external assistance at the Company's expense.**

Compliant  Partially compliant  Explain

- 30. Regardless of the knowledge Directors must possess to carry out their duties, they should also be offered refresher programmes when circumstances so advise.**

Compliant  Partially compliant  Explain  Not applicable

- 31. The Agendas of the Board Meetings should clearly indicate on which items Directors must arrive at a decision, so that they can study the matter beforehand or gather together the material they need for its resolution.**

**For reasons of urgency, the Chairman may wish to present decisions or resolutions for Board approval that were not on the Agenda. In such exceptional circumstances, their inclusion will require express prior consent, duly recorded in the Minutes, from the majority of the Directors in attendance.**

Compliant  Partially compliant  Explain

- 32. Directors should be regularly informed of movements in share ownership and of the views of major shareholders, investors and rating agencies on the Company and its Group.**

Compliant  Partially compliant  Explain

- 33. The Chairman, as the person charged with the efficient functioning of the Board of Directors, in addition to the functions assigned by Law and the Company's Articles of Association, should prepare and submit to the Board a schedule of meeting dates and agendas; organise and coordinate regular assessments of the Board and, where appropriate, the Company's Chief Executive Officer; exercise leadership of the Board and be accountable for its proper functioning; ensure that sufficient time is**

**given to the discussion of strategic issues, and approve and review refresher courses for each Directors, when circumstances so advise.**

Compliant **X** Partially compliant Explain

- 34. When a coordinating independent Director has been appointed, the Articles of Association or Board of Directors regulations should grant him or her the following powers over and above those conferred by law: chair the Board of Directors in the absence of the Chairman or Deputy Chairmen, give voice to the concerns of non-executive directors; maintain contacts with investors and shareholders to hear their views and develop a balanced understanding of their concerns, especially those that have to do with the company's corporate governance; and coordinate the Chairman's succession plan.**

Compliant Partially compliant **X** Explain Not applicable

The Coordinating Director has all the recommended functions attributed (chair the Board of Directors in the absence of the Chairman, give voice to the concerns of non-executive directors, coordinate the succession plan of the Chairman, etc.), except for the relationship with investors.

The Board of Naturgy as such pays special attention on matters relating to Investor relations, as set forth in Article 4 of the Regulation, amongst others. In view of this, the Company, within the scope of the new Strategic Plan, have developed a substantial line of action based on the alignment the interests between Directors and Shareholders. Accordingly, the Board have decided to assign this function to the Executive Chairman and have created a Capital Markets Department reporting directly to the same that has a unit that specialises in Investor Relations.

- 35. The Board Secretary should strive to ensure that the Board's actions and decisions take into account the good governance recommendations contained in the Good Governance Code of relevance to the Company.**

Compliant **X** Explain

- 36. The Board in a plenary session should assess once a year, adopting, where necessary, an Action Plan to correct deficiencies identified in:**

**The quality and efficiency of the Board's operation.**

**The performance and composition of its Committees.**

**The diversity of the composition and competence of the Board of Directors**

**e) The performance of the Chairman of the Board of Directors and the Company's Chief Executive.**

**f) The performance and contribution of each Director, with particular attention to the Chairmen of Board Committees.**

**The assessment of Board Committees should start from the reports they submit to the Board of Directors, while that of the Board itself should start from the report of the Appointments Committee.**

**Every three (3) years, the Board of Directors should engage an External Advisor to assist in the assessment process, whose independence should be verified by the Appointments Committee.**

**Any business relationships that the Consultant or any other company of its group maintains with the company or any company of its group must detailed in the annual corporate governance report.**

**The process followed and areas assessed should be detailed in the annual corporate governance report.**

Compliant  Partially compliant Explain Not applicable

- 37. When an executive committee exists, its membership mix by type of director reassembles that of the Board and the Secretary acts as such to the same.**

Compliant Partially compliant Explain Not applicable

- 38. The Board is kept informed at all times of the business addressed and resolutions made by the Executive Committee and that all Members of the Board receive a copy of the Minutes of the Executive Committee meetings.**

Compliant Partially compliant Explain Not applicable

- 39. All members of the Audit Committee, particularly its Chairman, should be appointed with regard to their knowledge and experience in accounting, auditing and risk management matters and that the majority of said Members be Independent Directors.**

Compliant  Partially compliant Explain

- 40. Listed companies should have a unit in charge of the internal audit function, under the supervision of the Audit Committee, to assure the correct functioning of the reporting and internal control systems. This unit should report functionally to the non-executive Chairman of the Audit Committee.**

Compliant Partially compliant  Explain

The Internal Audit Department ensures, amongst others, the proper functioning and internal control reporting to the Financial Department.

Supervision of the performance of the Internal Audit Department corresponds to the Audit Committee, so that it reports its activities to said Committee, which also authorises its annual budget and proposes its work plan and remuneration targets of the internal Audit Director. Likewise, the Audit Committee, together with the Appointments and Remuneration Committee, is responsible for the annual performance of the Internal Audit Director, for remuneration purposes.

- 41. The head of the unit in their internal auditing role submits to the Audit Committee their Work Plan for the year, informing the same in-person of any incidents arising during its development and submit an activities report at the end of each financial year.**

Compliant  Partially compliant Explain Not applicable

- 42. The Audit Committee have the following functions over and above those legally assigned:**

**1. With respect to internal control and reporting systems:**

- a) Supervise the preparation and integrity of the financial information related to the Company and, where applicable, the Group, reviewing compliance with the**

regulatory requirements, the appropriate delimitation of the consolidation perimeter and the correct application of the accounting criteria.

- b) **Ensure the independence of the unit in charge of the internal audit function; propose the selection, appointment, re-election and termination of the party responsible for the internal auditing service; propose the budget for this service; approve the approach and work plans of the same, ensuring that it focuses primarily on the main risks the company is exposed to; receive regular report-backs on its activities; and verify that senior management is acting on the findings and recommendations of its reports.**
- c) **Establish and supervise a mechanism whereby employees can report, confidentially and, if possible and if considered appropriate, anonymously, any potentially significant irregularities that they detect in the course of their duties, in particular of a financial and accounting nature within the company.**

**2. With regard to the External Auditor:**

- a) **In the event of resignation of the External Auditor, the Committee should investigate the issues giving rise to the resignation.**
- b) **Ensure that the remuneration of the external auditor does not compromise its quality or independence.**
- c) **Supervise that the company notifies any change of external auditor to the National Securities Market Commission as a Relevant Event accompanied by a statement of any disagreements arising with the outgoing auditor and the reasons for the same.**
- d) **Ensure that the External Auditor has a yearly meeting with the Board in plenary session to inform them of the work undertaken and developments in the company's risk and accounting positions.**
- e) **Ensure that the company and the external auditor adhere to current regulations on the provision of non-audit services, limits on the concentration of the auditor's business and other requirements concerning auditor independence.**

Compliant **X** Partially compliant Explain

- 43. The Audit Committee may call any of the Company's employees or managers, and also have them appear without the presence of any other executive.**

Compliant **X** Partially compliant Explain

- 44. The Audit Committee should be informed on any structural or corporate operations that the Company is planning, so the Committee can analyse the same and report to the Board beforehand on its economic conditions and accounting impact, and, when applicable the exchange rate ratio proposed.**

Compliant **X** Partially compliant Explain Not applicable

- 45. The risk control and management policies should identify at least:**

- a) **The different types of financial and non-financial risk the company is exposed to (including operational, technological, financial, legal, social, environmental, political and reputational risks), with the inclusion under financial or economic risks of contingent liabilities and other off-balance-sheet risks.**
- b) **The level of risk considered acceptable by the Company.**

- c) **The measures laid down to reduce the impact of the risks that are identified should they occur.**
- d) **Internal control and reporting systems which shall be used to control and manage the foregoing risks, including the contingent liabilities or off-balance sheet risks.**

Compliant **X** Partially compliant Explain

**46. That, under the direct supervision of the Audit Committee or, as the case may be, of a specialised Committee of the Board of Directors, there is an internal function of control and risk management exercised by a unit or internal department of the company that has been assigned expressly the following functions:**

- a) **Ensure the proper functioning of the risk management and control systems and, in particular, that all important risks affecting the Company are identified, managed and quantified adequately.**
- b) **Participate actively in the preparation of risk strategies and in key decisions about their management.**
- c) **Ensure that risk control and management systems mitigate risks adequately within the framework of the policy defined by the Board of Directors.**

Compliant **X** Partially compliant Explain

**47. Members of the Appointments and Remuneration Committee - or of the Appointments Committee and Remuneration Committee, if separately constituted - should have the right mix of knowledge, skills and experience for the functions they are called on to discharge. The majority of their members should be Independent Directors.**

Compliant **X** Partially compliant Explain

**48. Large cap companies should operate separately constituted Appointments Committees and Remuneration Committees.**

Compliant Explain **X** Not applicable

The Company believes that, at least in its case, it is neither necessary nor effective to separate the powers of the Appointments and Remuneration Committee into two Committees, one of Appointments and the other Remuneration. The existence of a single Committee does not harm or limit the exercise of the powers granted by law to the Appointments and Remuneration Committee, which also allows the Company to optimise costs insofar as this avoids the accrual of additional remuneration to the Directors called to be part of the two split committees. Furthermore, the Company considers that such splitting could be counter-productive, given that for the Company the presence of a significant number of Independent Directors on the Board Committees is relevant. Given the restrictions on the number of Independent Directors imposed under prevailing legislation in application of the principle of proportional representation, the number of Independent Directors on the Board of Directors is currently five (5). In order for there to be a significant number of Independent Directors on the two separate Committees, in addition to the Audit Committee (where they must be the majority by legal provision), an overload of work derived from a new Committee would be imposed on said Directors.

**49. The Appointments Committee should consult with the Chairman of the Board of Directors and Chief Executive Officer, especially on matters relating to Executive Directors.**

**When there are vacancies on the Board, any Director may approach the Appointments Committee to propose candidates they consider suitable.**

Compliant  Partially compliant Explain

**50. The Remuneration Committee should operate independently and have the following functions in addition to those assigned by Law:**

- a) Propose to the Board of Directors the standard conditions for Senior Executive contracts.**
- b) Monitor compliance with the remuneration policy set by the Company.**
- c) Periodically review the remuneration policy for Directors and Senior Executives, including share-based remuneration systems and their application, and ensure that their individual compensation is proportionate to the amounts paid to other Directors and Senior Executives to the Company.**
- d) Ensure that conflicts of interest do not undermine the independence of any external advice the committee engages.**
- e) Verify the information on remuneration of Directors and Senior Executives contained in the various corporate documents, including the Annual Report on Directors' Remuneration.**

Compliant  Partially compliant Explain

**51. The Remuneration Committee should consult with the Chairman of the Board of Directors and Chief Executive Officer, especially on matters relating to Executive Directors.**

Compliant  Partially compliant Explain

**52. The terms of reference of supervision and control should be set out in the Board of Director's regulations and aligned with those governing legally mandatory Board Committees as specified in the preceding sets of recommendations. They should include at least the following terms:**

- a) Committees should be formed exclusively by non-executive Directors, with a majority of Independent Directors.**
- b) Committees should be chaired by an Independent Director.**
- c) The Board should appoint the members of such committees with regard to the knowledge, skills and experience of its Directors and each Committee's terms of reference; discuss their proposals and reports; and provide report backs on their activities and work at the first board plenary following each committee meeting.**
- d) They may engage external advice, when they feel it necessary for the discharge of their functions.**
- e) Meeting proceedings should be recorded/notified in the Minutes and a copy made available to all Board Members.**

Compliant Partially compliant Explain Not applicable

**53. The task of supervising compliance with corporate governance rules, internal codes of conduct and corporate social responsibility policy should be assigned to one board committee or split between several, which could be the Audit Committee, the Appointments Committee, the Corporate Social Responsibility Committee, where one exists, or a dedicated committee established ad hoc by the Board under its powers of self-organisation, with at the least the following functions:**

- a) **Monitor compliance with the company's internal codes of conduct and corporate governance rules.**
- b) **Oversee the communication and relations strategy with shareholders and investors, including small and medium-sized shareholders.**
- c) **Periodically evaluate the effectiveness of the company's corporate governance system, to confirm that it is fulfilling its mission to promote the corporate interest and catering, as appropriate, to the legitimate interests of remaining stakeholders.**
- d) **Review the company's corporate responsibility policy, ensuring that it is geared towards value creation.**
- e) **Monitor the corporate responsibility strategy and practices and assess their degree of compliance.**
- f) **Monitor and assess the processes of liaising with different stakeholders.**
- g) **Evaluate all aspects of non-financial risks the company is exposed to, including operational, technological, legal, social, environmental, political and reputational risks.**
- h) **Coordinate non-financial and diversity reporting processes in accordance with applicable legislation and international benchmarks.**

Compliant    X                      Partially compliant                      Explain

**54. The corporate social responsibility policy should state the principles or commitments the company will voluntarily adhere to in its dealings with stakeholder groups, specifying at least:**

- a) **The goals of its corporate social responsibility policy and the support instruments to be deployed.**
- b) **The corporate strategy with regard to sustainability, the environment and social issues.**
- c) **Specific practices in matters relative to shareholders, employees, clients, suppliers, social welfare issues, the environment, diversity, fiscal responsibility, respect for human rights and the prevention of illegal conducts.**
- d) **The methods or systems for monitoring the results of the practices referred to above, and identifying and managing related risks.**
- e) **The mechanisms for supervising non-financial risk, ethics and business conduct.**
- f) **Channels for stakeholder communication, participation and dialogue.**
- g) **Responsible communication practices that prevent the manipulation of information and protect the company's honour and integrity.**

Compliant    X                      Partially compliant                      Explain

**55. The company should report on corporate social responsibility developments in its directors' report or in a separate document, using an internationally accepted methodology.**

Compliant X Partially compliant Explain

**56. Directors' remuneration should be sufficient to attract individuals with the desired profile and compensate the commitment abilities and responsibility that the post demands, but not so high as to compromise the independent judgement of non-executive directors.**

Compliant X Explain

**57. Variable remuneration linked to the company and the director's performance, the award of shares, options or any other right to acquire shares or to be remunerated on the basis of share price movements, and membership of long-term savings schemes such as pension plans should be confined to executive directors.**

**The company may consider the share-based remuneration of non-executive directors provided they retain such shares until the end of their mandate. The above condition will not apply to any shares that the director must dispose of to defray costs related to their acquisition.**

Compliant X Partially compliant Explain

**58. In the case of variable awards, remuneration policies should include limits and technical safeguards to ensure they reflect the professional performance of the beneficiaries and not simply the general progress of the markets or the company's sector, or circumstances of that kind.**

**In particular, variable remuneration items should meet the following conditions:**

- a) **Be subject to predetermined and measurable performance criteria that factor the risk assumed to obtain a given outcome.**
- b) **Promote the long-term sustainability of the company and include non-financial criteria that are relevant for the company's long-term value, such as compliance with its internal rules and procedures and its risk control and management policies.**
- c) **Be focused on achieving a balance between the delivery of short, medium and long-term objectives, such that performance-related pay rewards ongoing achievement, maintained over sufficient time to appreciate their contribution to long-term value creation. This will ensure that the performance measurement is not based solely on one-off, occasional or extraordinary events.**

Compliant Partially compliant X Explain Not applicable

In setting the variable remuneration, the Board has considered it appropriate to combine variable remunerations with different time horizons and metrics: on the one hand, annual variable remuneration whose metrics, linked to operational objectives, respond to a classic incentive model, which fits with the limits and precaution set out in this recommendation. On the other hand, remuneration with a long-term horizon has been introduced (it expires in July 2023), which has now been aligned with the return the shareholder would receive, and therefore does not tally exactly with the more traditional models of remuneration. The Board considers that, in the long term, the best and simplest metric of the performance of the Executive Chairman is the one referring to dividends distributed and changes to the share price.

**59. A major part of variable remuneration components should be deferred for a long enough period that predetermined performance criteria have effectively been met.**

Compliant  Partially compliant Explain Not applicable

**60. Remuneration linked to company earnings should bear in mind any qualifications stated in the external auditor's report that reduce their amount.**

Compliant Compliant partially Explain  Not applicable

The variable remuneration of the Executive Chairman does not explicitly take into account the qualifications that may appear in the external auditor's report and which reduce the profits, nor is it a situation that has previously arisen in the Company. However, the Appointments and Remuneration Committee only sets the degree to which targets are met for the variable remuneration once the company's accounts have been audited, so it is in a position to take into account the aforementioned qualifications, if any, when determining the degree to which targets have been achieved.

Accordingly, the degree of compliance with the targets established by the Board of Directors, mainly associated with the audited annual accounts, is reviewed and validated by the Internal Audit Department prior to approval of its favourable report by the Appointments and Remuneration Committee and the Company and is made at the time the annual accounts are formulated.

**61. A major part of executive directors' variable remuneration should be linked to the award of shares or financial instruments whose value is linked to the share price.**

Compliant  Partially compliant Explain Not applicable

**62. Following the award of shares, share options or other rights on shares derived from the remuneration system, directors should not be allowed to transfer a number of shares equivalent to twice their annual fixed remuneration, or to exercise the share options or other rights on shares for at least three (3) years after the award.**

**The above condition will not apply to any shares that the director must dispose of to defray costs related to their acquisition.**

Compliant Compliant partially Explain  Not applicable

The long-term incentive applicable to the Executive Chairman and other relevant executives of the Company brings into line the interest of the executives with those of the shareholders through a mechanism that contemplates a deferral in the payment of the incentive more than five (5) years after its approval. Accordingly, it is unnecessary to introduce an additional period of limitation to the transfer of shares when the plan expires and the shares are handed over.

**63. Contractual arrangements should include provision that permit the company to reclaim variable components of remuneration when payment was out of step with the director's actual performance or based on data subsequently found to be misstated.**

Compliant  Partially compliant Explain Not applicable

- 64. Termination payments should not exceed a fixed amount equivalent to two (2) years of the director's total annual remuneration and should not be paid until the company confirms that said director has met the predetermined performance criteria.**

Compliant      Partially compliant **X**      Explain      Not applicable

Compensation due to termination respects the foregoing recommendation of two (2) years of the director's total annual remuneration (fixed remuneration, annual variable and multi-year variable in terms detailed in the annual report on remunerations).

Conversely, the Executive Chairman has the right to compensation for non-competition that is of a different legal nature to the payment for termination of contract, since it involves compensation for the post-contractual non-competition agreement that it assumes. The amount of this compensation is one year's fixed remuneration.

#### **D OTHER INFORMATION OF INTEREST**

- 1. If there is any other relevant aspect in corporate governance in the company or in the group companies which has not been included in the rest of the sections of this report, but which it was necessary to include to show more complete and reasoned information on the governance structure and practices in the company or its group, briefly indicate them here.**
- 2. In this section, you may include any information or clarification with regard to the previous sections of this report to the extent that they are relevant and non-repetitive.**

**More specifically, indicate whether your company is subject to any corporate governance legislation other than Spanish law, and if so, include any information that is mandatory and different from that requested herein.**

- 3. The Company will also be able to indicate if it has voluntarily subscribed to other codes of ethical principles or good practices, at international or sector level, or in any other field. In that case, indicate the code in question and the date it was subscribed to. In particular, mention whether there has been adherence to the Code of Good Tax Practices of 20 July 2010.**

At its meeting on 17 September 2010, the Board of Directors agreed that Naturgy would adhere to the Code of Good Tax Practices. In accordance with the provisions laid down in the Code of Good Tax Practices, it is expressly placed on record that Naturgy has effectively complied with the content of this code and, more specifically, at the meeting held on 4 February 2020, the Board was notified, through the Audit Committee about the tax policies adhered to by the group in 2019.

Furthermore, at its session on 9 January 2018, and with the favourable report from the Audit Committee, the Board of Directors approved the Fiscal Strategy and the Fiscal Risks Control and Management Policy, which regulated the basic principles that must

guide the fiscal function of Naturgy, as well as the key action lines to mitigate and guide proper control of fiscal risks.
