

## **NATURGY ENERGY GROUP, S.A.**

NATURGY ENERGY GROUP, S.A. in compliance with the provisions of article 227 of the Securities Market Act, approved by Royal Legislative Decree 4/2015, of 23 October, hereby notifies the National Securities Market Commission of the following

### **DISCLOSURE OF OTHER RELEVANT INFORMATION**

Naturgy, through its subsidiary GPG, increases its presence in Australia with the award of a 107 MW Wind Farm and a 20 MWh Battery Energy Storage System by the Australian Capital Territory (ACT).

The wind farm, called Berrybank-Stage2, will be located located approximately 150 km from Melbourne and will involve a total investment of AUD 215 m (equivalent to approximately € 131 m) by GPG. Operations are expected to start in the second half of 2022.

As part of the award, GPG has committed to install a 20 MWh Battery Energy Storage System located within the Australian Capital Territory, that will allow to support the ACT distribution grid at the Queanbeyan substation, in partnership with TransGrid, the Transmission Network Service Provider in the region.

The awarded contract is a 10 years Deed of Entitlement at a regulated tariff, for the energy equivalent to 100 MW capacity. Given the characteristics of the awarded contract and the conditions of the Australian market, one of the most attractive countries to invest in renewables, the project fully complies with the investment and profitability criteria required by Naturgy for value creation.

With this award, in addition to the one announced last week, Naturgy increases its current presence in Australia by more than 50% and confirms its commitment to renewables growth in the country.
